

Soft Rebels

SPRING '22

A full-page background image showing two women walking through a field of tall green grass. The woman on the left is Black with short dark hair, wearing a long reddish-brown coat and carrying a blue and white striped bag. The woman on the right is white with long blonde hair, wearing a quilted reddish-brown jacket and black pants. They are walking towards the right, with a dense line of trees in the background.

SPRING '22

This spring season we present a collection inspired by our obsession with nature and the euphoric feeling that it evokes. Prints are inspired by the calmness of flowing water and the graphical structures you capture through a microscope.

A wear with ease favorite piece would be the slouchy cargo pant, best worn with a tank top and a voluminous crisp shirt in this season's most fashionable colour 'Sea mist'. This colour tone can be matched with the entire collection palette which boasts earthy mahogany, sea spray green, the oceanic shades of light and bright blue and a subtle yet vibrant splash of flowery rose. Need we say that for every piece, comfort and wow-effect is non-negotiable?

We hope you will be captivated by the awe and beauty of this spring '22 seasons naturistic backdrop.

Our best,

Soft Rebels
