DANISH DESIGN
PRODUCED IN SWEDEN

MILLE W NORDISK DESIGN was founded in 2011 by Danish-born Camilla Wallin, who is the company's designer and owner. Throughout her working life, she has worked with fashion and lifestyle, which has given her a solid experience in color and design. It is the Scandinavian mix of shapes and materials that has given her the passion to create sustainable products of high quality. Our sustainable approach enables us to limit our environmental impact, without compromising on the quality. The products are designed and manufactured in our own premises in Kullavik just south of Gothenburg (Sweden). We have our production and office under the same roof, which means that we can quickly go from idea to prototype.

RECYCLED
LEATHER

MILLE W NORDISK DESIGN is a brand in Swedish-made sustainable interiors and home furnishings. The consistent line of our products is our recycled leather that is GRS®-certified (Global Recycled Standard) it is made from leather remains from the fashion and furniture industry. The leather remnants are mixed with natural rubber made from the rubber tree. The recycled leather has the highest quality consisting of 80% leather and 20% natural rubber. The quality is very durable, water-repellent and easy to clean. In addition to recycled leather, we only use certified material choices in our products. The textile products are OEKO-TEX certified and the wood products are made of FSC-certified wood, the glass in the candle lanterns consists of recycled glass.

PRODUCED
IN SWEDEN

We have full control over our production process and can therefore ensure our quality, while we limit our environmental impact as we have our production in Sweden. All of our products are assembled, carefully checked and packed by hand. Our local production and use of natural and sustainable materials are the most important core values with us.

KITCHEN COLLECTION

Lanterns-Vases

MILLE W NORDISK DESIGN candle Lanterns - Vases are made of recycled glass and are part of an elegant series of mouth-blown and hand-painted vases / candle lanterns. The surface is slightly transparent to reflect the beautifully sparkling reflections of the glow from the candle or when the sun's rays pass through the flower stalks in the vase. Through careful craftsmanship, each vase / candle lantern becomes unique. The color and thickness of the glass can vary slightly as they are handmade and consist of recycled glass. One detail that provides additional uniqueness is the strap in recycled leather with the MILLE W logo emblem.

OFFICE COLLECTION

Desk Mat

MILLE W's desk mats is our own unique design of the traditional table cover, made from recycled leather that is GRS[®] certified. The surface is excellent to use instead of a mouse pad. The coasters are not sensitive to a hot cup of tea or coffee, they are easily cleaned with a wet cloth and a little detergent. They work just as well in your home office as in your workplace. The elegant and exclusive design is timeless and fits in just as well, regardless of whether your other surroundings are minimalist or classic. They are designed and produced in our own premises in Sweden.

HOTEL & RESTAURAT COLLECTION

With our own production and workshop, we can produce the shapes and sizes that fulfill your wishes and needs. We are happy to tailor made to your interior and your unique needs. We can, among other things, produce covers for your menu, table tablets, custom-made tablecloths for your tables, rugs, wallpapers, table numbering, leather wallpaper & tiles, headboards, etc. We can also engrave your unique logo if you wish. Regardless of your wishes, we will find a solution together. Our creative designers in combination with our own production give us the opportunity to design unique and tailored solutions together with you.

MILLE W CERTIFICATIONS

GRS – Global Recycling Standard

GRS - Global Recycled Standard

GRS is intended to meet the needs of companies that want to verify that the content of their products consists of recycled material. GRS defines requirements to ensure correct content and good working conditions for a reduced environmental impact.

OEKO-TEX Standard 100®

Oeko-tex is a test and certification system for textile products at all stages of production. The system checks that the products do not contain hazardous substances that are regulated within the EU's REACH candidate list of banned substances. Oeko-Tex is a human ecological label that has 4 classifications based on tests based on the textiles' areas of use. The more skin contact and more sensitive skin, the higher human ecological requirements must be met. Class 1 is tested according to the most stringent criteria.

RCS – Recycling Claim Standard

RCS is a label for traceability of recycled textile material. RCS makes no demands regarding environmental aspects of the production process (water and energy consumption), social aspects, safety-related issues and legislation. This label covers products that consist of 5–100% recycled material.

FSC – Forest Stewardship Council

FSC is an international member organization that works for the responsible use of the world's forests. Wood products that are FSC-certified are sustainably harvested with regard to the environment and social conditions that protect endangered species and strengthen the rights of both workers and indigenous peoples.
