Re-born Harmony

1.3- UNMADE COPENHAGEN

The theme of this season is defined by strong classics with an attempt to create harmony in well-known materials and updating the core evergreens in an Autumn Winter Unmade collection. The thought of essentials being re-born again with newly added elements give the collection a timeless and recognizable look.

The inspiration takes its roots in looks which harmonize functional outdoor with classic urban style and added folky-ethnic touches. This is shown from the traditional wool checks in heavy textures to faced scarves and feminine boucle items. Our knits are defined by soft vintage and delicate pointelle patterns to create a familiar and nostalgic look.

For this season, the colour palette is defined by a wide range of the seasonal colours both well-known basic tones and inevitable trend colours. We have focused on the soft beige, brown and burn yellow added with tainted hues of white till magical mauves, smooth tones and dusty shades. As supplement, the essential faded navy tones are mixed with electric strong blue and jade greens to teal colours.

The print and pattern universe are defined by the elements of the raw nature combined with signature repeated vintage tiles and graphic hand drawn lines. Winter florals in different scales from petit delicate florals- to upscales soft brush strokes lead your thoughts to the wilderness of leaves dancing in the cold winter breeze. Hand strokes made into antique looking tiles and graphic prints in rustic lines gives the print an authentic look.

Our muse for this season is portrayed in various moods: from wandering in a landscape surrounded by a mix of signature prints to another location where she is dancing in the middle of a scarf.

With this collection you will have a great selection of well-known scarves: signature printed structure weavings and fluffy wool scarves. We also present hand braided leather bags, recycled knits and a beautiful range of gloves both leather and wool qualities as well as reversible hats and glitter socks.

Our collection represents the future nostalgia - a convergence of the past and the future, embracing the core items for the perfect Autumn accessory.
