Our mission

The Chesterfield Brand, we want to make many consumers happy with high-quality, functional and affordable leather bags and accessories, produced with passion, attention to details and in a fair and transparent way, with every link in the chain being fairly rewarded for their efforts.

A word from the founder

“For me, building a business is like a great mountain hike. You start the trail without a precisely mapped out route, but you have reaching the summit in the back of your mind. Along the way, you encounter all sorts of gorges and rocks, which sometimes forces you to take a step back or take a different path to get back on track. Thus, in 2013, I took a new path and decided to focus entirely on The Chesterfield Brand. In doing so, I set a new goal: to create a stylish and timeless leather bag collection that is affordable for a very wide audience.”

– Koos Hoving, CEO and founder.

“You must see, smell and feel it,
only then you can judge whether
you have a nice piece of leather
in your hands.”

– Koos Hoving, CEO and founder.

The Brand

The story of The Chesterfield Brand is about taking risks, working hard and always staying positive. The adventure begins in 2013, when the financial crisis has just passed. We are determined to serve our customers and enthuse about our expertise in leather bags. After years of experience in the bag industry, we are convinced that things can be different. With The Chesterfield Brand, we want to prove that the combination of *quality* and *affordability* does exist.

By focusing on both the product and the production process, we have created a situation that benefits all parties in the best possible way. With this combination of transparency, honesty and integrity, we aim to set a new industry standard and be an inspiration to others.

All operations in the production process are carried out according to European standards. We ensure that all materials used are sourced with the utmost respect for people and the environment. By managing the shortest possible supply chain, we maintain control over the entire process and can guarantee the quality and affordability of our products.

With The Chesterfield Brand's products, we want to give people that extra bit of confidence. There is no second chance for a first impression whether you are appearing on your first day at work or going on a trip.

The Products

At The Chesterfield Brand, we are absolutely fascinated by leather. You must see, smell and feel it, only then you can judge whether you have a nice piece of leather in your hands. To create that soft, supple leather again and again and then to transform it into a stylish and functional leather bag that you can enjoy for years on end, takes a lot of work. And that is exactly what we do at The Chesterfield Brand.

Through years of cooperation and intensive contact, we see our leather producers partners. There is a direct connection with the production facility. Hence, The Chesterfield Brand has a major influence on the quality and durability of the leather. This quality can only be guaranteed by being closely involved in the process in which a hide is made into a bag. No leather hide is the same which makes every bag unique.

This type of leather is made from buffalo hide, a harder and stiffer type of leather. However, in cooperation with our factory, we have developed a special treatment process that keeps the leather supple. Sprayed by hand in the correct colour. This gives the leather a unique two-tone colour effect and vintage look.

In addition to SA8000, SEDEX and REACH we work together with LWG-certified tanneries.

LWG (Leather Working Group) is a non-profit organisation that focuses on the environmental impact of leather production worldwide.

Among other things, it looks at energy consumption, water use and CO2 emissions.
