

A woman with long, wavy brown hair is sitting on a light-colored woven chair. She is wearing a white short-sleeved t-shirt and light blue wide-leg jeans. Her hands are resting on the handles of a large, black, soft-structured leather bag that sits on the floor in front of her. She is also wearing a silver watch and a purple and white beaded bracelet on her left wrist. She is wearing white sneakers with tan laces. The background is a warm, textured wall, and a green plant is visible in the upper right corner. The text 'Reward your effort and honour your success' is overlaid in a large, white, serif font across the center of the image.

Novum Series

The Novum Series from The Chesterfield Brand represents the pinnacle of luxury craftsmanship, designed for those who appreciate the finest leatherwork. This collection features only meticulously selected full-grain cow leather, tanned using traditional vegetable methods—a process that requires time, expertise, and care to achieve its exceptional quality. In the final stage of production, the leather is waxed by hand, resulting in a rich, deep color tone. This distinctive leather, paired with top-tier detailing and exquisite finishing, yields a product that exudes both modern sophistication and timeless elegance.

Antique Buff

The Antique Buff Crumbled Leather series is crafted from buffalo leather, a type of hide generally known for its superior durability. In collaboration with the tannery, The Chesterfield Brand has developed a special treatment process that maintains the suppleness without losing the distinctive buffalo hide grain. Since machine spraying only achieves a uniform color, this leather is sprayed by hand to achieve the desired shade. This technique results in a so-called 'two-tone' effect. The series is developed and designed exclusively for the Nordic market, which is also reflected in the name of the products.

Wax Pull Up

The Wax Pull Up Leather collection from The Chesterfield Brand – a true homage to craftsmanship and heritage. It is our most used leather type, for good reason. Crafted with meticulous attention, each piece begins its journey with a careful pressing process. The leather is then enriched by hand with aniline dyes, deeply infused with natural oils and waxes instead of conventional paints and pigments. This unique treatment allows the dyes to penetrate the pores of the leather, enhancing its natural texture and gradually developing a distinctive patina. It guarantees that each item is long-lasting and remains supple.
