CORMORANO

Cormorano is made from the finest quality calfskin and is one of our most well-known leathers. Its characteristic surface is created by using a printing plate during the start of the tanning process followed by a coating, which makes an amazing durability.

It is amazing to experience the world from a new view, and through our SS23 Cormorano collection, we want to give a feeling of traveling in a hot air balloon. We have created a range of bags with wavy shapes, like the clouds in the sky, and we have added an exclusive new golden metal lock with an inside key. The colours of the bags are inspired by the sky, clouds and blooming nature.

To maintain its characteristic and beautiful appearance, we recommend treating this product on a regular basis using Adax Protection Spray or Adax Balm.

SORANO

Sorano is made from high-quality calfskin made with a very light tanning and transparent dyeing process showing the structure and unique characteristics of the leather. Only the absolute best, flawless skins are used for our Sorano styles, which make the selection of leather a very time-consuming and demanding process, and only very few tanneries can produce this kind of leather quality.

To embrace this amazing and extremely soft leather, we have designed a collection that has a natural and clean look, which makes the styles radiate high luxury.

It is recommended that this leather is treated regularly using Adax Protection Spray to protect and maintain its natural appearance.

SALERNO

This Salerno collection is characterised by its classic design and is made of a base of our bestsellers together with introducing new shapes. With the desire to create the ideal bag for the quality-conscious and modern woman, this collection originates in our DNA with highest quality Salerno leather and uncompromising design. These styles are offering long durability with a characteristic surface, which only gets more beautiful over time.

We recommend treating the leather on a regular basis using either Adax Protection Spray or Adax Balm to maintain the characteristic and beautiful appearance of the leather.

RAVENNA

Our Ravenna collection is one of our newer leathers made from high-quality calf leather and adds a new character to our identity with a more relaxed, but still exclusive appearance, with the silver lock. To maintain the special, informal look of the leather, it is washed prior to the bags being sewn.

The range is characterised by the thick and strong leather with an elegant turn lock, which makes the bags more fashionable with a relaxed look. We see Ravenna as the go-to range for exploring the world around you, or just to add a little extra for your everyday life.

It is recommended that this product is treated with Adax Protection Spray on a regular basis to maintain its characteristic and beautiful appearance.

AMALFI

The Amalfi collection, which is made from very smooth and exclusive, tanned calf leather, is designed with a minimalistic look to cultivate the Scandinavian feeling we love so much. Together with the characteristic softness and flexibility of the leather, we have kept the functionality and comfort as you know it from our brand DNA.

To include the comfy trend, we have designed a range of the Amalfi leather in a quilted design made in the same high-quality calfskin and gives an exclusive look inspired by the high-end trends.

This leather ensures extended durability and a product that only gets more beautiful with time. Therefore, it is recommended that calfskin is treated using Adax Balm.

PIXIE

The Pixie collection is made of high-quality calf leather, with great strengthens and durability. The designs are inspired by the vintage look and are developed with a technique where the bags are washed in large, industrial washing machines after being sewed together. This makes a cool and worn image to appeal to the young and casual costumer.

It is recommended that this product is treated with Adax Protection Spray or Adax Balm on a regular basis to maintain its characteristic and beautiful appearance.

CORSICO

The Corsico collection is made from the absolute finest quality calfskin characterised by its softness and unique appearance. The handbags are thoroughly hand-braided and washed to give the leather an amazing look and with a very easy-going design and references back to the 70's in a contemporary kind of way, the leather really comes to its right for the exploring kind of woman.

This season, we introduce a new and beautiful smoke blue colour, which connects the collection and our SS23 theme exceptionally well.

It is recommended to treat Corsico bags regularly with Adax Protection Spray to protect and maintain its surface.

VENEZIA

The Venezia collection is made of one of our softest leathers, as the surface almost feels like silk. The designs have a very sporty look and have become an experimenting and innovative collection with new ways of designing with this leather.

The leather plays a big role in the designs as it almost makes its own pattern out of the tannery process. By hand folding and drying the leather in the sun, every bag is unique with its own very living pattern. The bags are handstitched in soft calf leather with a unique strength and durability. The casual design enhances the beautiful characteristics of the leather.

We recommend treating the leather on a regular basis using Adax Protection Spray to maintain the characteristic and beautiful appearance of the leather.

NAPOLI

The Napoli collection focuses primarily on business and travel. We have chosen an extra strong and durable leather quality made of thicker and high-quality calfskin with a beautiful surface. It is fundamental for this type of collection that the leather can resist different weather conditions and daily use.

It is recommended that the leather is treated with Adax Protection Spray or Adax Balm to protect and preserve the leather's natural appearance.

HELLO I'M VEGAN

Hello, I'm vegan is a new collection for Adax. It is made in a high-quality recycled PU based on The Global Recycled Standard certification, and it is free from animal skin.

Our mission is to make our bags accessible for everyone. Therefore, we have made a collection with all the traditional Adax values but in a vegan fabric. This collection is designed with a fashionable look and all the bags come in four different colours. In some of the bags, you will find a new designed cardholder that can contain many credit cards.

We recommend treating the bag with Adax Protection Spray to protect it from dirt and moisture.

NOVARA

Our Novara collection is made from high-quality recycled nylon to ensure durability and flexibility and is certified with the Global Recycled Standard.

With these styles, you will get two straps: a black nylon strap and a magenta-coloured strap with golden details which give the customers different styling opportunities.

We recommend treating the bags with Adax Protection Spray to protect it from dirt and moisture.

SENNA

The Senna collection is designed for everyday use in our northern climate with the changing seasons and many days of rain. We have chosen a water repellent material for this collection, which both protects the items inside the bag as well as being able to withstand the changing weather conditions. The collection is inspired by a mix between the big city life and the trekking nature lifestyle with focus on functionality.

Clean with a soft, damp cloth to remove any dirt. Never dry your bag next to a heating appliance such as a radiator or naked flame.

SESTO WALLETS

The Sesto wallet collection for men offers a wide range of sizes and designs in a soft and elegant leather quality. The collection contains wallets for both travel and everyday use, credit card holders and a hangtag suitable for carry-on luggage and bags. Beautiful quality and great craftsmanship have been the trademark of every Adax product since the establishment of the company.

We recommend Adax Leather Balm and Adax Protection Spray for optimal protection. The treatment should be repeated once or twice a year.

EDINBURGH WALLETS

The Edinburgh wallets, made from incredibly soft leather, are dedicated especially for men. Their unique quality is highlighted by the elegant metal logo on the front. The Edinburgh line is one of the most successful lines in Adax's extensive collection of wallets.

We recommend Adax Leather Balm and Adax Protection Spray for optimal protection. The treatment should be repeated once or twice a year.

PARMA WALLETS

Parma wallets are made from eco-friendly leather tanned with products sourced from nature without the harmful use of chemicals helping us reduce our environmental footprint. The wallets are designed and sewn in accordance with Adax's traditional craftsmanship and more than 35 years of experience.

We recommend treating the leather with Adax Protection Spray to protect and preserve the natural appearance of the leather.
