FALL WINTER 26  
LOOKBOOK

Carmella wool coat - cut from a soft double faced wool and alpaca blend. Crafted with volume, clean shape and subtle details

## FALL WINTER 26

Rooted in the ground, the Fall Winter 26 collection returns to what feels essential. A quiet exploration of origin, stability, and warmth — where clean shapes meet soft, tactile qualities.

Earthy tones define the palette. Deep burgundy, muted plum, and warm, grounded hues unfold across the collection, creating a sense of calm and continuity. Colors that feel held, not loud. Familiar, yet renewed.

Soft, draped knitwear moves alongside sculptural silhouettes. Strength and ease exist in balance — structured forms softened by fluid movement. Shearling, wool, cashmere and are layered with intention, each material chosen for its warmth, texture, and natural presence. Delicate lace is introduced as a quiet contrast — a subtle trace of fragility within grounded forms.

This is a collection shaped by continuity. Signature pieces remain at the core, reimagined in new colors and expressions, carrying the DNA of AKS Label forward while allowing it to evolve.

Fall Winter 26 is a return to the roots. A season defined by softness, depth, and a sense of belonging — grounded, warm, and enduring.
