AUTUMN / WINTER 2021

GORE-TEX
KIDS AUTUMN / WINTER 2021

The ultimate kids boot. 360° reflectivity with waterproof and breathable GORE-TEX membrane.

RADIANT R GTX

With a sleek design, the highest warmth and 360° reflectivity, Radiant R GTX is the ultimate kids boot for safe and comfortable feet during the dark winter months.

This unique winter boot is made from durable and supportive materials that stand up to everyday active use and feature a long-lasting reflective coating. An additional reflective pattern, inspired by the stars at night, wraps around the boot for total visibility from every direction. Warm and comfortable feet in snowy conditions are ensured by a waterproof and breathable GORE-TEX membrane and premium insulation. The GORE-TEX membrane is OEKO-TEX 100 standard. The boot is also equipped with EVA for cushioning and a rubber sole with great grip and durability, no matter the activity level. Radiant R GTX is all about safety, comfort and a great look - something both parents and kids will love. The shoes is washable at 30 degrees, but we don't recommend softener.

277 Black/Charcoal

5348 Antique pink/Grape

HILMA GTX

For parents looking for a dependable winter boot and kids who delight in that little bit extra, meet Hilma GTX, the practical boot with flare.

While kids will undoubtedly be drawn to the glittery side panels and plush faux fur at the top, parents will appreciate the abrasion resistant upper, for example, that's equipped with tough reinforcements to last and high-vis reflective details to be seen. They might also recognize the market leading waterproof and breathable membrane label of GORE-TEX, and know their kid's feet will stay comfortable and dry. Finally, the long-lasting rubber outsole sporting grippy treads will reassure them that their kid's feet will stay firmly planted on slippery winter streets and playgrounds.

53 Antiquerose

Viking's new addition in the winter collection - practical with double velcro and elegant with glitter.

SPRO GTX

Spro GTX is an all-round winter performer with a long lasting construction built to handle rain, snow and slush.

The boot is made from reinforced synthetic materials that are resistant to scratches and scuffs, while offering good support. An insulated inner liner keeps feet warm and the Nordic last has space for little toes to move. A GORE-TEX membrane provides 100% waterproofness and breathability. A mudguard increases durability and toe reinforcements protect the feet when highly active. Reflectors on the front and back illuminate at night and the colorful rubber sole gives great traction when needed. A sporty style with toned down autumn colors, Spro GTX is a boot that parents and kids can agree on.

Highly reflective slip-on GORE-TEX winter boots easy in and out for kids on a hurry.

VERGLAS R GTX

Winter certainly comes with its share of challenges – help your child overcome them with the perfect winter boot.

Take the challenge of being seen during the dark months, meet with Verglas R GTX 360° of reflective details. Or how about foot comfort when the temperature drops or when faced with snow, mud and slush? A cozy insulated liner together with a waterproof and breathable GORE-TEX membrane will keep little toes toasty and dry. Then there's the challenge of simply getting in and out the door, where a slip-on design with cool, adjustable Velcro straps is sure to make Verglas R GTX a favorite for kids and parents alike.

Warm easy adjustable urban winter boots with a zip on the inside.

MONTEBELLO GTX

Montebello GTX is a warm, supportive and urban inspired kid's winter boot. Inside is a soft and insulative liner that keeps small feet feeling comfortable, no matter the weather or conditions.

Montebello GTX also features a waterproof and breathable GORE-TEX membrane that ensure dry feet. The GORE-TEX membrane is OEKO-TEX (100) standard. A kids specific last gives plenty of support and an inside zipper combined with traditional laces makes getting in and out easy. The rubber sole ensures great grip and durability. Standout looks make Montebello GTX a favorite this fall and winter. The shoe is washable at 30 degrees, we recommend not to use softener.

YKK

OKSVAL GTX

Oksval GTX is a warm, slip-on boot for kids that is built for playing in cold temperatures and deep snow.

Colorful and sporty, Oksval GTX is made from durable ripstop nylon with a GORE-TEX membrane that is 100 % waterproof and breathable. The GORE-TEX membrane is OEKO-TEX (100) standard. The insole is made from highly insulating 3M™ Thinsulate that boost even more warmth. Elastic laces are easy to tighten with gloves on and the snow-lock, prevents cold and unpleasant surprises. For grip, Viking's natural rubber outsoles with a high traction lug pattern do their job well and stand the test of time. Pull them on, tighten them up and let kids go anywhere on cold and snowy days. The shoe is washable at 30°, we recommend not to use softener.

ALL WEATHER BOOT

KIDS AUTUMN / WINTER 2021

Perfect for kids who love to play outside whatever the weather is. Perfect for the parents who want a boot that can adjust to the weather!

SLUSH

Rain, snow, mud or ice? Conquer them all with this versatile, all-weather rubber boot that was built for the shoulder season's unpredictable weather.

Viking rubber boots are known for their quality, and the lower portion of the boot is made of durable, reinforced rubber to take on the toughest ground conditions. But a few innovations were needed to deal with the tougher temperature extremes. To do so, Slush features an insulating 6,5 mm neoprene liner. Neoprene is a synthetic rubber and is known to be insulating, waterproof and to remain flexible even in cold temperatures. The bottom part and shaft of the boot are made of 60% lightweight TPE and 40% rubber, which is also able to remain flexible even in the coldest winter weather. The TPE compound makes the Slush boot lighter while the 40% rubber in the shaft and outsole combined with a unique tread pattern that continues up the sides, provides good grip and extra lateral traction when side-stepping up snowy and muddy slopes.

5 Navy

53 Antiquerose

SLUSH R

Dark, cold and wet? Conquer them all with this versatile, all-weather rubber boot that was built for the shoulder season's unpredictable weather.

Behind a cool pattern on the shaft hides 360° of high-vis reflectivity just waiting to reveal itself when the sun goes down. Meanwhile, an insulating neoprene liner and lightweight TPE/rubber shaft, which is also able to remain flexible in the cold, can take on sub-zero temperatures. Viking rubber boots are already known for their quality and dependability at keeping moisture out. The TPE compound makes the Slush boot lighter while the 40% rubber in the shaft and outsole combined with a unique tread pattern that continues up the sides, provides good grip and extra lateral traction when side-stepping up snowy and muddy slopes.

PU BOOT

KIDS AUTUMN / WINTER 2021

ISTIND

Istind is a modern thermo winter boot for kids with classic styling that offers supreme warmth and comfort on the snowiest days.

The base of the boot is made from a flexible Polyurethane called Elastopan®, which is a 100% PVC-free. It contains millions of tiny air bubbles and is 40% lighter than PVC or rubber and 2.5 times more insulating than normal PU boots. The shaft is made from a durable textile that resists snow and wet weather. Inside, a fuzzy and warm wool blend liner provides extra insulation and is removable for fast drying. Elastic laces with a toggle make adjusting the fit simple and a high traction lug pattern works great in the snow. This boot provides kids with a great look and feel for mid-winter conditions.

EXTREME 2.0

Award winning design and a favorite among kids and parents, Extreme 2.0 is a warm thermo boot full of smart details.

Extreme 2.0 is approved by the German organization TÜV SÜD, which inspects products and issues product certifications in safety and sustainability. Thanks to a Polyurethane construction with an adjustable cuff lock, Extreme 2.0 is waterproof, light, and comfortable for all-day wear. Made from a flexible Polyurethane called Elastopan®, which is a 100% PVC-free, it contains millions of tiny air bubbles and is 40% lighter than PVC or rubber. Viking thermo boots provide 2.5 times more insulation than normal PU boots and are twice as durable. With the help of a wool and polyester lining, Extreme 2.0 can effectively insulate kids' feet down to -20°C. The sole of this boot is made from TPU, which is slightly heavier than PU, but has excellent wear and non-slip properties. For blocking wet, snowy, and frigid conditions, Extreme is a tried and trusted winter classic..

FROST FIGHTER

Developed for the coldest days of the year, Frost Fighter can be summed up in two words - ultimate warmth. This insulated thermo boot is Viking's warmest kids model and can keep small feet warm and happy down to an impressive -30 °C.

It does so by combining the high quality, lightweight and insulating polyurethane called Elastopan® with an ultra-warm wool and polyester lining. Elastopan® is a 100% PVC-free, that contains millions of tiny air bubbles and provides 2.5 times more insulation than normal PU boots, while being twice as durable. An elastic band around the cuff helps lock in heat and keeps snow and debris out, while an extra thick PU sole grips well and makes sure there is plenty of space between the feet and the cold ground. When temperatures plunge, there is no warmer boot for kids than the Frost Fighter.

ULTRA 2.0

A modern classic - Ultra 2.0 is a great looking, streamlined winter boot for kids that is made from a high tech PU material, which keeps feet warm no matter how cold it gets.

Quick to get on and off and easy to clean, Ultra 2.0 is made from a flexible Polyurethane called Elastopan®, which is 100% PVC-free and contains millions of tiny air bubbles. This makes it 40% lighter than PVC or rubber and offers 2.5 times more insulation than normal PU boots. Combined with a lofty wool blend lining, Ultra 2.0 keeps feet warm down to -20°C. Viking's Nordic last leaves some extra space for the toes and stays comfortable all day long. A thick PU sole with large lugs grips well and four bright color combos complete this unique winter boot that is loved by both kids and parents alike.

JUNIOR

AUTUMN / WINTER 2021

GORE-TEX
JUNIOR AUTUMN / WINTER 2021

JACK GTX

A mid-high urban shoe for junior, Jack GTX brings a casual look and plenty of comfort to colder days at school or in the city.

The shoe is made from durable materials with integrated reflective details and a cool elastic strap on the back. For warmth, fleece lining insulates well on cold days and gives feet a soft feel. In wet conditions, a GORE-TEX membrane reliably keeps feet dry, while also allowing the foot to breathe freely. The GORE-TEX-membrane is OEKO-TEX (100) standard. Speed laces and a Velcro adjustment strap make the shoe easy to put on and tighten, and Viking's normal youth last provides good support for every activity level. When slippery surfaces appear, the high traction outsole made from rubber ensures good grip. For nice look on everyday urban adventures, Jack GTX fits right in. The shoe is washable at 30°.

We do not recommend to use softener.

The perfect urban warm GORE-TEX shoes for school. With reflective details to keep you safe on your walk back home.

LIAM GTX

Liam GTX is an insulated, hiking inspired everyday shoe for urban kids looking for some originality this winter.

With a focus on warmth and comfort, these sporty shoes are made from long-lasting materials and feature a cool reflective detail on the back. Inside, they are fully warm-lined for insulation against cold weather and also feature a waterproof and breathable GORE-TEX membrane that ensure dry feet. The GORE-TEX membrane is OEKO-TEX (100) standard. The shoes have a normal fit and come with elastic laces in modern colors as well as a Velcro strap. Excellent support comes from an EVA midsole and the rubber outsole with deep lugs grips the snow and slippery surfaces well. The shoe is washable at 30°. We do not recommend to use softener.

Hiking inspired winter GORE-TEX shoes. Stay safe, warm and dry at school in winter time!

FOSSUM GTX

Sub-zero temperatures outside? Fossium GTX can take it. That's because this cool, premium urban shoe is equipped with a soft, insulated lining that will keep your feet warm and toasty in freezing weather.

Warm feet are also dry feet – a waterproof and breathable GORE-TEX lining will make sure they stay that way. The upper is built tough, made of durable textile with synthetic nubuck reinforcements along the mudline to meet the harsh ground conditions of winter streets. Underneath, a cushioning and lightweight EVA midsole combines with a grippy rubber outsole sporting large lugs to give you the traction you need, all season long.

Functional high cut winter GORE-TEX shoes.

VOLL GTX

Defy the coldest of days this winter with Voll GTX, the urban winter boot that offers premium performance packaged in a cool, clean design.

Foot warmth is job number one, so a soft insulated lining will keep your toes toasty while a high cut topped with warm and stylish faux fur trim will keep the snow and cold air out where it belongs. Moisture also has no place in a winter boot, so a breathable and waterproof GORE-TEX liner will make sure feet stay dry and comfortable. Winter street conditions are tough, so the upper is also built tough, made of durable textile with synthetic nubuck reinforcements along the mudline. Underneath, a cushioning and lightweight EVA midsole combines with a grippy rubber outsole sporting large lugs to give you the traction you need, all season long.

Viking's classic double velcro winter boots. A proven performer in the winter weather.

BEITO GTX

As one of Viking's most popular junior winter boots, the Beito GTX is a proven performer when the winter storms roll in. It features great warmth and waterproof protection through a GORE-TEX membrane with a soft and warm lining.

The GORE-TEX membrane is OEKO-TEX 100 standard. Padded Velcro adjustment straps are easy to get a hold of even with frozen fingers. The coated PU toecap and heel provide extra reinforcement for long lasting durability. A molded EVA midsole reduces weight, provides shock absorption and insulation, whilst the sporty outsoles with heavy rubber lugs ensure great traction. Complete with colored webbing details and contrast stitching for a modern look, the Beito GTX lives up to its reputation. The shoes is washable at 30°, but we do not recommend softer.

FOXY

Foxy is a soft, comfortable and extremely functional rubber boot.

It has a slim to normal female fit, but is made on a women's last and has a slimmer fit around the ankle, so that it doesn't slip up and down when you walk. The side buckle covers a gusset so it has good adjustment, and can easily be tightened. The boot is made in all natural rubber. The boot looks feminine as the sole is undercut a little, with a slight heel, but it still has a good non-slip lug pattern. Inside is a removable insock which you can dry out if need be. The lining is quick dry coloured polyester on the shaft.

A high all-round rubber boot with adjustable strap and a women specific fit. Also available with cosy winter lining.

FOXY VINTER

Feminine, functional, foxy and warm - Foxy Vinter is a classic, insulated rubber boot that keeps out the rain and cold, while enhancing your style.

A women's specific last with a normal fit keeps your feet feeling great on the wettest days. A warm and cozy liner boosts warmth for autumn and winter use. Natural rubber construction provides flexibility and complete waterproofness, while a non-marking, grippy sole keeps you in control wherever you go. Dress it up or down, the Foxy Warm looks great with any outfit and even comes with a silicone sponge to keep them looking bright and shiny.

PRAISE SERIES

Praise is a multi-purpose, all weather commuter boot with a modern style and high comfort feel that you can wear anywhere.

Great for walking or biking around town, this rubber boot features a timeless, slip-on design with large elastic panels to ease getting in and out as well as contemporary details. A fast-drying liner, removable EVA insoles and embedded heel cushions help improve comfort. The boot has a normal fitting anatomical last, which provides support and room for the toes to move. Underneath, the rubber sole pattern grips well on most surfaces and the fit has been developed specifically for women.

A sporty multi-purpose rubber boot in many looks, from subtiled monochrome colors to trendy animal prints or for the colder days with fleece lining.

PAVEMENT

Pavement is a versatile and sporty styled hybrid rubber boot for both men and women wanting modern waterproof footwear they can use anywhere.

This sleek, ankle high boot features a construction that mixes lightweight, natural rubber with soft and flexible neoprene. It is lightweight and easy to put on and take off thanks to conveniently placed pull loops. Inside, there is a removable EVA insole with an ergonomic design for good arch support and better comfort. Great grip on slippery surfaces is ensured by a calendar sole with a high traction tread pattern. Through the city, in the garden or on the BOAt, Pavement keeps feet dry and looking their best.

RETRO LOGG

The next generation of a relaxed and comfortable classic, **Retro Logg** offers plenty of protection from the elements whether in the city, garden or exploring nature.

The mid high design with a semi-glossy finish is made from LWR, a unique lightweight rubber blend that provides increased flexibility and lightens your step. An inner polyester mesh and canvas lining is quick drying and a removable insole is ergonomic for good arch support and shock absorption. The boot looks flat, but is built up on the inside for comfort, insulation, and to give the feeling of a small heel.

VETUS

With sailing roots, but wet urban days in mind, Vetus is a modern rubber boot for men and women wanting style, comfort and waterproof protection.

Made from natural rubber, which is both flexible and durable, the boot has a sleek silhouette, a lower height and features ribbed overlays for an original look. Inside, there is a polyester lining that is quick drying and a removable insole for good arch support as well as shock absorption. The boot is also built up on the inside for comfort and insulation. The calendar sole grips wet surfaces well and won't leave marks on floors. Vetus keeps feet comfortable and contemporary, whether at sea or in the city.

BERGEN

Bergen is a masculine, mid cut boot that keeps men's feet dry and looking good on wet urban journeys.

With a clean-cut style and made with natural rubber construction, Bergen is highly durable and resistant to scratches and abrasions. Elastic panels around the cuff make for easier entry. A newly designed last eliminates pressure points and provides a snug and secure fit with space for the toes to move. A polyester inner liner is quick drying and the insoles give increased comfort on long walks. The fully formed rubber sole with a rugged lug pattern provides plenty of traction. Great fit, function and style, Bergen keeps feet dry and comfortable all day long.

35 Blue

KADETT

This classic calendar soled sailing boot, from the 60th, brings back sweet memories to many Norwegians.

In the 80s, the high school kids started to fold down the top of the boot and draw and write sweet sentences or similar comments on the exposed lining. Kadett's lining today is made of quick drying polyester and canvas in the foot part for additional stability. It has calendar outer sole, and ergonomic removable inlays sole for easy drying. The style has normal fitting and the entire boot is made of natural rubber, which is elastic, resistant and waterproof. The natural colour sole is non-marking - important on wooden sailing boat decks - and the inner sole is removable for easy drying.

Brings back sweet memories from the 60th, or fold down the top as the kids in the 80's. This rubber boot is still going strong with the non-marking sole and easy drying lining.

Size range 35-47 Art.no.: 1-43260 Price XXX

A dark, moody advertisement for CERRA. The background is a close-up of a wet, textured surface, possibly a piece of fabric or a lens, with numerous water droplets. A circular lens-like element is visible on the right side. The text "CERRA" is prominently displayed in white, bold, uppercase letters on the left. Below it, the text "ADULT AUTUMN / WINTER 2021" is written in a smaller, white, uppercase font. The overall aesthetic is high-contrast and atmospheric.

ANACONDA 4X4 MID GTX

Popular hikingboot now in midcut

The comfort that has made Viking's Anaconda family so popular is now available in a sturdy midcut waterproof hiking boot that will keep feet happy during those long mountain hikes.

The secret to its comfort lies in a wide fit that enables toes to spread, as well as a molded insole and soft EVA midsole that provides excellent, long-lasting cushioning. Comfortable feet also need moisture to stay outside the boot, and nothing does this better than the GORE-TEX waterproof and breathable membrane. A supportive mid-cut upper sporting a cool, clean look compliments this comfort with stability. Finally, a high-traction Ultimate Grip Concept rubber outsole will get you up, over or through just about any terrain conditions the day can throw your way.

TREKKING

ADULT AUTUMN / WINTER 2021

CLASSIC 150 GTX

This product is a tribute to the Norwegian outdoor culture and is a collaboration with the Norwegian trekking Association (DNT). Classic 150 GTX is a premium footwear that delivers excellent support to the foot and good comfort on long treks with full loads.

With a full grain leather construction featuring a mudguard and strategic reinforcements, the boot resists scratches and scuffs with ease. A GORE-TEX membrane ensures waterproofness and breathability for the best foot climate. The fit is medium-wide and an EVA midsole provides the right mix of stability, flexibility and cushioning in the heel. For easy entry, there is a Norwegian inspired pull loop on the back. Other features include insoles with a hiking map print as well as a handy D-ring for attaching gaiters. The high profile rubber outsole with Viking's UGC technology enhances grip on the trail and completes this go-anywhere boot with a timeless design.

1802 Darkbrown/black

A premium leather trekking boot, tested and made in cooperation with the Norwegian hiking association DNT.

Classic trekking boot in fullgrain quality leather, ensure long product lifecycle and keeps your feet well protected.

LOFOTEN GTX

Is the wild calling? This reliable hiking boot is ready to respond. When the trails take you through variable terrain and with a light backpack, your ankles will appreciate the comfortable yet supportive mid cut, and the tough full grain leather can take a beating while keeping your feet well-protected.

Meanwhile, you can be confident facing any weather with a waterproof and breathable GORE-TEX membrane that will keep your feet dry and comfortable, and Viking's rugged Ultimate Grip Concept is sure to keep your feet firmly planted with each new step into the unknown.

WINTER COLLECTION FOR SNOWY DAYS

ADULT AUTUMN / WINTER 2021

SVARTISEN

Svartisen is a modern and stylish thermo winter boot that offers supreme warmth and comfort on the coldest, snowiest days.

The base of the boot is made from a flexible Polyurethane called Elastopan®, which is a 100% PVC-free and waterproof. It contains millions of tiny air bubbles and is 40% lighter than PVC or rubber and 2.5 times more insulating than normal PU boots. A high quality suede shaft is durable and provides an exclusive look that repels snow and wet weather. Inside, a fuzzy and warm wool blend liner provides extra insulation and is removable for fast drying. Elastic laces with a toggle make adjusting the fit simple and a high traction lug pattern works well in the snow. This boot provides a great look and feel for mid-winter conditions.

4302 Mustard/Black

7702 Charcoal/Black

The must have thermo boot, when temprature goes below -10 degrees and you have long days outdoor.

203 Black/Grey

ICEFIGHTER

An extreme thermo boot for the most extreme conditions - the Icefighter was built to endure the cold and keep feet warm down to an incredible -40 °C.

This high shaft thermo boot combines the high quality, lightweight and insulating polyurethane called Elastopan® with an ultra warm wool and polyester lining. Elastopan® is a 100% PVC-free and contains millions of tiny air bubbles and provides 2.5 times more insulation than normal PU boots, while being twice as durable. The sole is extra thick and gives great insulation and grip on ice and snow. These boots feature a Nordic cold climate last, which is wider, with more room in the toe area, since cramped feet could lead to frostbite. The Icefighter is great for snowmobiling, ice fishing, shoveling the driveway - any activity where you encounter the deepest snow and coldest temperatures.

Thermo boot for extreme cold conditions.

APEX II BOA GTX

A high performance all-round GORE-TEX shoe for all kind of training and use.

The Apex II BOA is a high performance trail running shoe focused on delivering low weight, high breathability and total waterproofness.

An engineered mesh construction gives the foot stability where needed while keeping weight to a minimum. The 100 % waterproof and highly breathable GORE-TEX membrane ensures foot comfort at any activity level. The GORE-TEX membrane is OEKO-TEX 100 standard. For convenience, the new 2-way BOA Fit system replaces laces for fast, effortless and precision fit. An EVA midsole provides reliable shock absorption and a supportive mid foot stripe helps keep the foot in place. When it comes to grip, a broad, high profile rubber outsole gives these sleek and colorful runners a secure stride on any terrain.

**“Top quality leather,
wider fit, Ultimate Grip
and integrated extra
lace in the heel loop.”**

HUNTER DELUXE GTX

A high, supportive boot made from top quality leather offers total protection in rugged terrain.

The 100% waterproof GORE-TEX membrane keeps feet totally dry and regulated even in the wettest and muddiest conditions. The comfortable Nordic last features a slightly wider toe box as well as improved heel grip. Eyestay construction allow for easy repairs and the ankle-lacelock makes fit adjustment easy. Braided nylon cord on the shaft functions as a pull loop and doubles as extra laces in a wilderness emergency.

VIKING HUNTER GTX

High, supportive and built to handle it all, the Viking Hunter GTX is a classic leather hunting boot that provides outstanding support for long hunting trips with the heaviest loads.

As Viking's sturdiest boot, it features a stylish and durable leather construction with a strong GORE-TEX lining for 100% waterproof protection. Viking Hunter GTX offers a roomy last, perfect for hunters with broad feet. The soft bellow tongue helps achieve stealth as you hunt and a rubber toecap adds reinforcement. For the ultimate grip, the Viking Hunter comes with a UGC® sole made from natural rubber, so slick and uneven terrain will not stand in your way.

“Classic leather with outstanding support for long hunting trips.”

18 Dark Brown

VILLREIN II BOA GTX

Whether sitting still for hours or tracking through kilometers of backcountry wilderness, you can hunt in comfort with our classic, waterproof hunting boot now with improved flexibility and durability.

In this model, a supportive upper made of tough yet flexible full-grain leather has been equipped with BOA closure system for an unbeatable fit and ease of entry and exit. Meanwhile, you can be confident your feet will remain dry and comfortable in any weather with a waterproof and breathable GORE-TEX membrane, and you can count on Viking's rugged Ultimate Grip Concept to keep your feet firmly planted wherever the hunt may take you.

Med Boa på jaktsko

Jeg har tidligere prøvd Boa-systemet med wire-stramming på joggesko og truger. Kan Viking lykkes med å forenkle snørejobben på høye jaktstøvler uten at det går utover stabiliteten?

TEKST OG FOTO: ÅSGEIR STØRDAL

Det er sikkert ikke mange timer man sparer i løpet av et jaktår på hurtigstramming, men vi mennesker er nå en gang såpass makelige anlagt at det er kjekt med alle forenklinger i hverdagen. Å stramme jaktstøvler med 6-10 maljer, kan jeg følge med godt stå over – hvis det ellers fungerer.

Boa-systemet er kort fortalt en tynn wire som strammes inn i klokke. Wiren løper gjennom de samme maljene som på en tradisjonell jaktstøvel. Fordi wiren er glatt, får du jevn stramming over hele sko – på godt og vondt. Hvis du foretrekker gå med litt hardere drag over vrister, får du her altså ikke noe hjelp av låsehemper.

Viktig etterstramming

Det jeg lærte kjapt, er at du for det første bør være påpasselig med at skotunga bretter seg riktig og tetter godt inn mot skafet. Ellers kan du få litt glippe midtveis opp på leggen der snø og regn kan finne en snarvei inn.

I tillegg er det lurt å etterstramme Boa-mekanismen etter å ha gått noen hundre meter. Da har nemlig presset i wiren fordelt seg over hele løpebanen, og du får gjerne litt slakk å hente inn oppover leggen.

Etter etterstramminga oppleves Villrein Boa som en litt myk jaktstøvel – ikke av de stiveste råskinnene for bæring av brutale bærer, men nok for normal jakt. Den er lett, sitter godt på foten, og krever lite inngåing.

Lett og luftig

Goretexen holder tett, samtidig som jeg opplever støvlene luftigere enn mye anna jaktfottøy. Muligens er de litt tynnere føra, uten at jeg ser det som noen ulempe. Fordi

GREPA: Viking Villrein fungerer godt og stabilt med boa-strammingen.

«Stovelen imponerer med godt grep. Gummien er myk og vil nok slites raskere, men det er tilgivelig når frasparket er så godt.»

skoer er kjappe å snøre, kan du dessuten unne deg den luksu å vippe dem åpne når du trenger luften undersåttene. Det er nemlig kjapt gjort: Bare dra i strammeklokka, så løses hele wiren ut. Veldig kjekt når du kommer fram til telteiren, eller bare trenger kippe sko av og på ut på hyttetrampen.

Avslutningsvis vil jeg berømme UGC-sålen: Jeg vet ikke om Viking bruker litt ulike gummiblandinger, men denne støvelen imponerte med godt grep i bratte vestlandslirer etter hjorten. Gummien kjennes veldig myk, og vil nok derfor også slites raskere, men det synes jeg er tilgivelig når frasparket er såpass godt. <<<<

*Villmarksliv magazine (Nr 5, 2019)

FALK NEO

Falk Neo is a versatile hybrid boot for hunters and herdsmen, and was rated “Best Allrounder” in the Norwegian magazine Villmarksliv in May 2019.

This boot offers ultimate performance on muddy trails and rugged terrain. Falk Neo is made with a Light Weight Rubber (LWR) shell with three-layers in the foot area, a steel shank and toe cap for stability and durability. The shaft and lining has 5 mm neoprene, which is lightweight, flexible, waterproof and warm. A molded EVA inlay sole with cushioning in the heel makes long walks comfortable and the insole is removable for easy drying. Falk Neo comes equipped with Viking’s unique UGC® sole, a rugged outer sole with multidirectional lugs, even in the sole arch area, for perfect grip in the outdoors. Falk Neo excels in the mountains, fields and forests all day long.

**“Best In Test!
Solid, fit, outsole
& support”**

TROPHY 4.0

“Once again, Trophy 4.0 was voted Best In Test, this time in the Norwegian magazine Villmarksliv, May 2019. We have tested this earlier, with great success. We struggle to find other models that can provide the same total package regarding tough use, hiking and hunting says John Arne Tungen from Villmarksliv.”

Trophy has been recommended as Best Buy by Villmarksliv as far back as 2010 and is still the best. There are layers of rubber for stability and durability in the foot area. With its high leg, this boot is designed for the most demanding users like hunters and herdsman who are out in the mountains all day. Trophy is equipped with Vikings unique UGC® sole, a rugged outer sole with multidirectional lugs, even in the sole arch area, for perfect grip in the outdoors. The boot is equipped with an adjustable gusset at the leg for individual fitting. Trophy has a low density rubber compound which gives much lighter boots without compromising durability or stability. There is hard wearing and quick drying polyester lining in the shaft. A moulded EVA inlay sole with cushioning in the heel makes it comfortable for long walks. The inlay sole is removable for easy drying.

Size range 36-48 Art.no.: 1-49450 Price XXX

TROPHY V CAMO

Viking's best-selling rubber-hunting boot, Trophy V Camo takes stealth to the next level with an optimized camouflage pattern.

Trophy V Camo is made from Light Weight Rubber (LWR) with three layers in the foot area, a steel shank and a toecap for stability and durability. An adjustable gusset on the leg makes for individual fitting. Durable and quick-drying polyester lining in the shaft/leg and canvas in the toe area provides extra stability. A molded EVA inlay sole with cushioning in the heel makes long walks comfortable and the insole is removable for easy drying. Trophy Camo comes equipped with Viking's rugged UGC® sole for perfect grip and camouflage print for the most demanding hunters in the roughest terrain

**Same support, fit and outsole as

ELK HUNTER LIGHT

When the chances are your hunt will take you deep into wet and wild backcountry, you'll be happy you brought this lightweight and packable hunting rubber boot.

Like all Viking rubber boots, it is 100% waterproof, handmade from soft and flexible natural rubber. It also features a molded insole and supportive fit that still slips on easy thanks to a smooth, quick-drying inner lining. Yet what makes it unique is that the shaft is made using Viking's Light Weight Rubber, which is both light and collapsible. This, in combination with a hangable loop, makes the boot very easy to pack along. Finally, a cushioning, ultralight EVA midsole and aggressive Ultimate Grip Concept rubber sole provide both comfort and confidence when every step counts.

TERRAIN II

Terrain II is a mid cut style so as to be quick to get on and off. The waterproof nylon cuff is adjustable with the speed locker at the back so as not to get caught in the undergrowth.

The outsole is based on Viking's unique Ultimate Grip Concept® outsole for excellent grip in rough terrain. This outsole is made with Light Weight Rubber to reduce the weight of the entire boot. The boot is made of natural rubber which is elastic, resistant and waterproof. The sole is non-marking and the inner sole is removable for easy drying. It is lined with soft lightweight quick drying polyester lining for light weight, and stiffer canvas in the toe area for better stability. Reflective tape at the top of the shaft for night time safety.

HEDMARK

Size range 39-52 Art.no.: 1-47700 Price XXX

A favorite new tool for farmers, Hedmark is an acid resistant work boot for demanding conditions and everyday use.

With a half-length shaft and a special sole that is mud resistant, the boot is made from an extra resistant rubber blend that withstands rough use around the farm. It has a smooth, polyester lining which makes the boots easy to get on and off as well as an ergonomic footbed that is removable for easy drying. A wide last gives room for layering with extra socks. The rubber sole provides good traction in all conditions around the workplace. Hedmark is a comfortable boot that is particularly suited for tough environments.

8 Brown

OPPLAND

Size range 39-52 Art.no.: 1-47750 Price XXX

Oppland is a comfortable, yet tough work boot that provides reliable waterproof protection in cold and wet conditions.

This mid-cut rubber boot model has been developed for those working long hours in cold conditions on the farm. It is made from Viking's most durable rubber blend, which is also acid resistant. The boots come with a warm, 3/7 wool and polyester lining that traps warm air for comfort on cold days and also helps wick moisture away from the feet. A specially developed, wide last allows for extra socks during severe conditions. The non-marking sole is resistant to mud and provides good traction in all conditions around the workplace.

VIKING NEO

A rubber boot with full neoprene lining and wide fit, helps to keep the toes warm.

As any outdoor enthusiast who doesn't stick to the trails knows, nothing keeps the moisture out quite like a rubber boot.

With Viking Neo's insulating lining, you can now extend the rubber boot season, keeping your feet both dry and warm even when the weather gets cold. A high shaft equipped with an adjustable buckle provides solid protection from the elements, while on the inside a neoprene lining and extra roomy last provides warmth from your toes to your calves. To ensure sturdy footing, the midsole is fitted with a steelshank, and a rubber outsole sporting large lugs will give you the traction you need, no matter what the surface or temperature conditions.

4 Green

VIKING GRAB NEO

Easy on/off rubber boot with full neoprene lining and comfy fit.

As any outdoor enthusiast who doesn't stick to the trails knows, nothing keeps the moisture out quite like a rubber boot.

With Viking Grab NEO's insulating lining, you can now keep your feet both dry and warm when the weather gets cold. The $\frac{3}{4}$ length shaft is also fitted with a smart pull handle which, together with a heelspore, makes for quick ons and offs. On the inside, an extra roomy last provides space for thicker socks and wiggle room for the toes, while the neoprene lining ensures feet and legs stay warm from top to bottom. To ensure sturdy footing below, the midsole is fitted with a steelshank, and a rubber outsole sporting large lugs will give you the traction you need, no matter what the surface or temperature conditions.

	This product has warm lining		The product has material with more than 60% recycled rubber or fabrics.		

WORLD FAMOUS MEMBRANE!

Waterproof.

Some things just work without you noticing. When your feet are working at full capacity, sweating, splashing through water and struggling through mud, and you're still dry and comfortable then there's a good chance that you're wearing GORE-TEX footwear. But you don't notice, it just works!

GORE-TEX is known throughout the world for its excellent waterproof and breathable properties and was discovered almost by accident in 1978. GORE-TEX is one of the wonders of the 20th century and remains W.L.Gore's most successful invention.

Viking was one of the first manufacturers of shoes and boots to put the now famous GORE-TEX technology to use. We have used it in our models since 1992.

The Norwegian climate, with wet conditions and temperatures varying from freezing cold to rather warm, calls for a waterproof

and breathable fabric. GORE-TEX is just that fabric. The membrane basically works like the human skin: it lets moisture out and repels water. This means feet stay dry and warm, even in the toughest conditions.

GORE-TEX is also windproof. All in all, this makes GORE-TEX shoes and boots a necessity when walking in demanding conditions. Dry and comfortable feet are guaranteed.

ON-THE-FLY ADJUSTMENT

with a quick turn of the wheel.

LIGHTWEIGHT:

BOA® closures shed water, mud and ice.

FAST:

BOA® is quick to take on and off and saves time.

DURABLE:

BOA® laces are stronger per gram than tank armor.

WORLD CLASS LEATHER

Nothing beats leather when it comes to creating breathability and waterproofness. Leather comes in several thicknesses and tannings and is processed to serve the needs of many types of products, footwear included. We use it for its unique qualities: it breathes, keeps water out, and protects the feet. It also happens to be a great material for making shoes, as it is durable and flexible.

Choosing the right leather is a skill of its own. We use only top quality full grain leather, suede or nubuck leather.

FULL GRAIN LEATHER

Full grain leather is the highest quality there is. It has not been buffed or sanded, and often bears marks from the cattle it came from. Over time it will develop a natural patina and a genuine look.

NUBUCK LEATHER

Nubuck leather is top-grain leather that has been sanded or buffed on the outside to create a velvet-like surface of short protein fibers from the skin. It is durable and very resistant to scratch marks.

SUEDE

Suede is made from the inner part of a hide. Suede has a napped finish that creates a textured layer and a more refined look. It is thinner than regular leather, so it is softer and lighter, and takes color well.

PrimaLoft® Gold Insulation (Neededled) - 90% PCR Item #I-1006

I-1006F for footwear applications
I-1006G for glove applications

PrimaLoft® Gold Insulation (Neededled) - 90% PCR offers best-in-class insulation designed for repeated compression and durability over time. Featuring 90% post-consumer recycled fibers made from plastic bottles, our unique low-bulk construction maintains thickness and continues to trap body heat even under compression. By doing so, this keeps the wearer 38% warmer in dry conditions and 2X warmer when wet than competitive insulation. As a result, PrimaLoft® Gold Insulation (Neededled) - 90% PCR is the go-to choice for the ultimate performance in footwear and gloves built for all conditions.

Technical Description

PrimaLoft® Gold Insulation (Neededled) - 90% PCR keeps you dry, warm and comfortable and is designed for superior durability over time. While most insulation is thermally stabilized two-ways against compression, PrimaLoft® Gold Insulation (Neededled) - 90% PCR uses 3D stabilization that retains warmth because of its unmatched ability to maintain loft - Keeping you 38% warmer than competitive insulations. Staying dry is not always an option, so PrimaLoft® Gold Insulation (Neededled) - 90% PCR couples a permanent water repellent treatment with high-density construction that insulates 2X better than other footwear insulations when wet, offers excellent moisture management, and dries faster than the competition.
