CRAFTED BY NORWEGIAN NATURE

ALFA 

//

ON FOOT SINCE 1931

ALFA is all about moving forwards,
No matter the terrain, weather conditions, or distance,
we have the shoes.

Crafted by Norwegian Nature

Since 1931 Norwegians have trusted us on their walks,
big and small. Our shoes have been to the poles, the
hills and the summits. With Continual feedback from
our shoe bearers, each shoe is evolved to perfection.
This is the heritage that lives on in our products

ALFA 
// CRAFTED BY NORWEGIAN NATURE

//

WINTER

Everyday expeditions

// We all have a relationship to nature. Some of us prefer long trips, through ice fields or to the top of the highest mountain. Others focus on enjoying shorter hikes. Extreme winter adventures benefit from Alfa's long experience in cold, harsh environments. Our winter boots are engineered for challenging winter conditions.

Prize winning and water repellent winter shoes made from ecological, sustainable Norwegian wool. Durable, lightweight and comfortable, with waterproof laces. A timeless design, made for everyday use.

ATTRIBUTES

- Weight: 480g per sko (EU39)
- Material: Norwegian Wool
- Sole: Vibram® Grip AMG ensures good grip on the snow.

RATINGS

- Waterproof: 3/5
- Breathability: 5/5
- Sole Stiffness: 4/5
- Insulation: 5/5
- Ankle Support: 4/5

"ALFA Stad are comfortable, warm and trendy winter shoes which were crowned the winner at the Scandinavian Outdoor Award for material use, design and presentation. Both the upper material and lining are ecological Norwegian wool, woven at Gudbrandsdalens Wool Factory. Weaving the wool makes it more durable, naturally breathable, water repellent and insulated. The upper and toe cap are strengthened with nubuck leather for extra protection. This robust winter shoe will retain its appearance for a long time, and can easily be maintained with our impregnation spray to keep the wool's water repellent properties. The outer sole utilizes ALFA's unique rubber blend from Vibram®, which provides a secure grip on snow covered surfaces. The EVA midsole is comfortable and adds support. The shoes are simple to put on, lace up and be active. Stad has a good fit and is a shoe you'll look forward to using as the cold weather sets in."

Grend Comfortable everyday shoe for winter. Made from sustainable, ecological, **W** Norwegian wool of the highest quality, in two natural colours.

ATTRIBUTES

- Weight: 520g per sko (EU 39)
- Material: Norwegian wool
- Sole: Vibram® Grip AMG

RATINGS

- Waterproof: 3/5
- Breathability: 5/5
- Sole Stiffness: 4/5
- Insulation: 5/5
- Ankle Support: 3/5

"ALFA Grend is a hybrid of comfort, function and timeless design. Warm winter shoes made from woven Norwegian wool, in two natural colours; light and dark grey. With a waterproof zip, you can easily put on and remove the shoes. Both the upper material and lining are made from sustainable, ecological Norwegian wool, which is known for its quality as well as being water repellent, breathable and insulated. Wool is durable and we've chosen woven wool for improved durability. Winter shoes in the WOOL collection are made using materials of the highest ALFA quality. They have a good fit, cushioned EVA midsole and an outer sole using ALFA's unique rubber blend from Vibram®, which provides excellent grip. For extra protection, the shoes have a top cap and upper made of leather. Grend also has a modern zip at the front, which makes the shoes easy to put on and take off. With these shoes, you are ready for the Norwegian winter – both at the cabin and in the town."
