AUTUMN 2024

The inspiration behind Autumn 2024 is rooted in a Nordic aesthetic, drawing references from early Scandinavian architecture with a modernistic and functionalistic approach.

Architectural, wavy lines are interpreted in our fabric structures and prints. Influenced by architecture known for their sleek curved lines and natural-derived materials, sophisticated colours and craftsmanship, we have created a collection proving that aesthetics can accompany functionality.

Key this season is our strong foundation of signature tailoring, a mix of herringbone and pin stripes, exclusive cashmere and merino knit. Silk, sequins and denim are added to create edge and contrast.

The colour palette offers a range of redefined classics, chic dark tones and more patinated shades, revolving around browns and indigo, illuminated with blue and greenish shades, such as jade and dark moss. Smoky neutrals and grey in all tone heights are paired with a hint of cold mineral beige to soften up the Autumn hues.
