

BULAGGI

the Bag

AUTUMN-WINTER
2023-2024

{ PETA-APPROVED
VEGAN }

BEAUTY IS MORE IMPORTANT THAN EVER BEFORE

The **BULAGGI** autumn/winter 2023-2024 collection has three distinct moods. Gruesome events taking place in the world have given rise to an urge to go back to the beginning of time. Beauty is more important than ever before. Creativity is bound to flourish whenever there is unrest, and that is exactly what we see happening. *'Joy is an act of resistance'*. Individuality – in the sense of freedom – is a key value, as is the awareness that we all need community; together we are better.

The winter of 2023 promises a paradoxical language of shapes that can be described as primitive luxury, feminist elegance or invincible vulnerability. **HIGHLANDER**, **FREESTYLE SPIRIT** & **OPULENT** are the moods which recur in different materials and forms throughout the winter collection.

"This autumn/winter collection is more special than ever. It is a collection in which the goal is: -We are better together-. The value of freedom is an important theme. The collection this season is feminine, powerful and tough."

BULAGGI is a progressive brand, and with each fresh collection we remain strongly aware of the constantly growing pressure on the environment. This has led to an increasing use of more environmentally-friendly materials, and this explains why our collection of environmentally-friendly bags grows larger every season, and why we are still proud to display the PETA-approved vegan logo. Bulaggi understands what women want, and offers a range of affordable, on-trend, high-quality vegan bags with special extras for all occasions: **'DESIRE WITHIN REACH'**.

Annemarieke Schouten-Walraven, owner and designer at BULAGGI.

HIGHLANDER

Urbanity and nature characterise **HIGHLANDER**, a trend not composed of contradictions, but rather giving shape to the mutual dependence and silhouettes of modern city-dwellers with a pronounced longing for nature and movement. The feeling of being connected – of involvement – promotes a soothing serenity. We also see inspiration from archaeology and a distant past; raw and yet polished. The shapes of the bags are more casual and feature natural colours. The **Silva** and **Isobel** ranges are both examples of this.

FREESTYLE

FREESTYLE SPIRIT is all about re-devising conventions and clichés; about the irreversible transition in which women take on a more equal role. The styling is rather minimalistic, and colour and the use of materials are key; feminine, but sometimes with a raw edge.

The strong, clear colours of precious stones are a guarantee of inspiration. The **Saffia**, **Gloria** and **Alexia** ranges are good examples of this mood.

FREESTYLE SPIRIT

OPULENT

OPULENT can be recognised by its multi-faceted chaos. In response to turbulent times, there is a heartfelt need to celebrate even the smallest signs of beauty, joy and unexpected luxury. Historic elements are the starting point for this, merged with futuristic aspects. The ranges **Charlotte** and **Julie** exemplify this.

We are aware of the increasing pressure on the environment, and of how this has led to a greater demand for more environmentally-friendly materials.

BULAGGI GOES GREEN

Therefore we have been sourcing new materials that are also more acceptable from an environmental friendly perspective. We are very proud and satisfied that we have succeeded in finding such a eco-friendly, recycled, vegan material.

This year we have expanded our eco-friendly collection with 7 new models. You will find these on the following pages as well as our trusted eco-friendly models.

Besides this BULAGGI takes an extra step in the right direction eco-friendly wise with every collection. From our SS21 onwards we have realized a plastic reduction of as much as 80%! This is accomplished by no longer using polybags but dustbags and/or recycled paper to protect our bags. Also our bags are not stuffed with plastics but with recycled paper instead. By improving ourselves and learning with every collection we achieved a **plastic reduction of nearly 90%** at this moment.
