COLLECTION

## CLASSIC COLLECTION

### TIMELESS DESIGN WITH A CONSCIENCE

Love the way you live. Live stylishly, sustainably and ethically. And live well – with Classic Collection.

Classic Collection brings you Scandinavian design at its best – simplicity, functionality and strong, clean lines. Our ambition is to pair stunning design with unmatched craftsmanship, responsible, sustainable sourcing and impeccable quality for modern living that endures the test of time.

Make stylish choices that lend context and texture to your home. High-end, handmade carpets inspired by the artisanship and skills of bygone eras. Cushions, bedspreads and throws, each one unique, hand woven and finished with care. Handwrought brass and aluminum accessories for a touch of glamour.

Classic Collection puts the power to create positive change in your hands. Like you, we are mindful of the impact that our choices have on every level and on our planet. We select environmentally friendly materials and processes, whenever possible. We work to ensure safe working conditions and fair labor practices for the weavers, artisans and other suppliers whom we rely upon. We even strive to reduce the ecological footprint of our packaging. Because we believe that in order to live well, we have to follow our conscience.

*Pierre Flodén & Katarina Dahlgren*

### CARE & FAIR

Fair wages. Safe working conditions. Better living conditions. Adult education centres. Schools and day care clinics for children. That's what Classic Collection stands for. Our ethically made, hand-knotted and hand-tufted rugs support this European carpet initiative. | [care-fair.org](http://care-fair.org)

### SA8000® STANDARD

Classic Collection complies with this social certification standard, which adheres to international human rights conventions and secures ethical working conditions for millions of workers across the globe. | [sa-intl.org](http://sa-intl.org)

### OEKO-TEX

For Classic Collection it is absolutely essential that our products are made in the safest way possible. Everything is tested, fabrics, zippers, sewing threads, labels and hang tags. Products certified with Oeko-Tex® do not contain any toxic or allergic substances.

### CODE OF ETHICS & BUSINESS CONDUCT

To be a responsible company, we make sure that the people we deal with also act responsibly. That's why Classic Collection has established and upholds a code of conduct for doing business, which covers everything we do.

From full disclosure of quality criteria and product requirements to health and safety, environmental aspects, fair employment principles. And from conflicts of interest, gifts and gratuities through to supplier commitment to communities and education. | [classiccollection.se](http://classiccollection.se)
