STOCKHOLM

LOOK BOOK

SUMMER/WINTER 2022

Our comittment to women of the world influences all we do.

A world in which feminity in all shapes and forms is celebrated and explored without limitations. A place with unquestionable equality, where confidence blooms without reservations.

SUSTAINABLE

Our flexible production on demand makes sure we can deliver single pieces or small batches fast, without overproducing. All fabrics are natural. Moreover some of the fabric used in this collection are left-over fabrics. These limited editions fabrics are better choice for nature, because we don't use any new resources.

PERSONAL

Garments can be personalized for a perfect match to body and soul. Most garments are designed with flexible fitting elements to make sure they are flattering for all women.
