company Profile

InnoTex Merkel & Rau GmbH

Textiles are our Passion

With a special focus on creativity and innovation, our team of designers develops approximately 400 designs per year, as well as realizing further pattern requests from customers.

We are equipped with seven textile inkjet machines for digital printing and three rotary screen printing machines for traditional printing.
For finishing fabric, we have a large variety of machines available to achieve your desired finish; such as calender machines, shrinking machines and raising machines (for a full list, see "Our finishing equipment" on the next page).

We can handle all kinds of knitted and woven fabric in both printing technologies, also including highly elastic jerseys and warp knits.

Your company for digital and screen printing on woven and knitted fabric, with large collections of print designs for various markets:

Womens outerwear:
- printed viscose and cotton elastane jerseys in different weights
- georgettes, crinkles, sateens and batists made out of viscose, cotton, polyester, silk and various blends
- linen qualities
- weft elastic sateens and denims

Womens nightwear:
- printed cotton or cotton / modal, single or interlock jersey
- cotton-voile, silk batist and silk blends
- long repeats are possible with intermitting printing technology

Mens nightwear:
- interlock- and single jerseys, mercerized and discharge printed

Underwear / lingerie:
- polyamide-elastane warp knits, tulle and jerseys, digitally or rotary printed
- printed mercerized cotton and cotton / modal jerseys and interlocks

Mens shirts:
- cotton woven fabric such as combric, poplin, sateens for shirts as well as jerseys and piques, printed digitally or rotary

Activewear:
- fabrics include knits with 4-way stretch for dynamic movement as well as high breathability

Swimwear:
- polyamide-elastane warp knits in rotary and digital printing
- cotton- , silk or polyamide voile, jerseys for pareos
- viscose elastane jerseys for beachwear

Home textiles / bed linen:
- printed interlock, mercerized sateen and flannel fabrics
- our specialty: printed and plain fabrics up to a usable width of 305 cm

Country style:
- cotton - renforcé and cretonnes, mercerized cotton - sateen
- various blouse and apron qualities in different weights
- digital and pigment printing or discharge screen printing possible

Childrens outfitting:
- plain and printed cretonnes, voiles, jerseys and poplins

Our certificates:

LENZING EcoVero™

| our machinery

Our digital printing machines

- 2 Reggiani Renoir Pro machines running on reactive dye for cellulosic fabrics
- 1 MS JP 6 machine running on reactive dye for cellulosic fabrics
- 1 MS JP 6 machine running on acid dye for polyamid, elastane fabrics and wool

Digital printing capacity: approx. 2.000.000 m / year

Our rotary screen printing machines

- Zimmer – up to 16 colors
- Zimmer – up to 12 colors
- Stork – up to 8 colors

Screen repeat lengths: 64, 82, 91 and 102 cm for different pattern widths

Rotary screen printing capacity: approx. 6.000.000 m / year

Our finishing equipment

- Steamer – Stork
- Open width washing machine with vacuum dehydration – Erbatech
- Low tension rope washing machine
- Stenter frame, dryer and fixation machine – Brückner
- Stenter Red Double Deck – Unitech Industries
- Compressive shrinkage unit – Muzzi
- Calender steal – racolan
- 2 raising machines
- Inspection machines for highly elastic articles up to K-group IV – Unglaub
- Inspection and duplicating machine – MT
- Raising, emerizing and brushing machine – Xtema
- Tumbler – special soft finish for linen

Our dyes and inks

- Reactive (digital and screen) on all cellulosic fabrics (also with elastane)
- Pigment (screen printing only)
- Acid (digital and screen) on polyester, elastan and wool
- Vat dye, mainly for discharge printing
- Burn outs of cotton or viscose against polyester (Burn out printing)
- Effect paste printing
- Photochromic dyes
