

Laundry Society Fabric Sprays

Our fabric sprays quickly refresh your clothes and saves machine washes. Clever functions that save time, water and extends the life-cycle of your garments. Freshly scented to increase the sense of newly-washed clothes. Distribute 4-6 sprays evenly across the garment and you are ready to go!

Laundry Societys Detergents

Our detergents are based on a natural saponification process and carefully selected, first-class ingredients. Developed to suit different fabrics and temperatures to care for and protect your textiles. Free from enzymes.

Laundry Society - A new, innovative way to care for your clothes! Save time, prolong the life span of your garments and reduce the impact on the environment. Modern and smart!

The idea is to wash less and spray more! The fabric sprays will keep your clothes fresh between washes. Stains are treated separately to avoid enzymes in the laundry process. Every single product from Laundry Society has its purpose and function to simplify your everyday life. With more than 20 years of experience and expert knowledge of product development, we have created the Laundry Society range, molecule by molecule.

A sustainable and vegan way of taking care of your clothes.
Some call it a laundry revolution. We call it Laundry Society.
