

HOLEBROOK SWEDEN

LOOKBOOK FALL / WINTER 2023

SUSTAINABILITY AT HEART

It's hard to make a good thing last, they say - but we have found our own ways to give our clothes an enduring quality. It's based on a down to earth sustainability ambition, which begins with wool, cotton, mohair and alpaca. Those are all natural materials that do not need to be washed as often, thus prolonging the life of the garments and reducing their impact on the environment.

All Holebrook clothes are manufactured in Europe. They are made to last and they are the opposite to fast. Thanks to decades-long personal relationships, each one of our suppliers shares our commitment to quality and sustainability. In that commitment, we have left no room for compromises. If a specific material or manufacturing technique isn't available in Europe, we will not do it.

Sustainability is, at heart, all about the choices you make.

ANITA CREW A32412
