We believe in better shoes.

By refining and improving every detail,
we create smarter, more durable
children shoes without compromising.

What does Kavat mean?

In Swedish, the word Kavat means bold and brave. A nod to curiosity, confidence and moving forward - qualities we believe belongs to childhood itself.

Today more relevant than ever.

We are family.

Kavat have always been a family business.

This shapes how we think. We believe in long-term relationships over short-term trends. In quality over compromise. In moving fast, staying curious, and continuously improving what we do.
