INTRODUCING
INWEAR AUTUMN 2025

Urban Essence

Inspired by the pulse of modern city life, the InWear Autumn 2025 collection blends understated functionality with timeless elegance. With a discerning eye for detail, these pieces embrace a philosophy of non-seasonality, transcending fleeting trends to become enduring staples in the wardrobe of the contemporary sophisticate.

When it comes to curating a thoughtful winter capsule wardrobe, InWear stands as a trusted authority, and this collection is no exception. Minimalist yet refined; each piece is designed to make a subtle but striking statement. Exceptional quality defines the collection, showcasing luxurious materials such as plush, heavy lambswool knits, soft corduroy, buttery leather, casual canvas, crisp poplin, and delicate sheer lace.

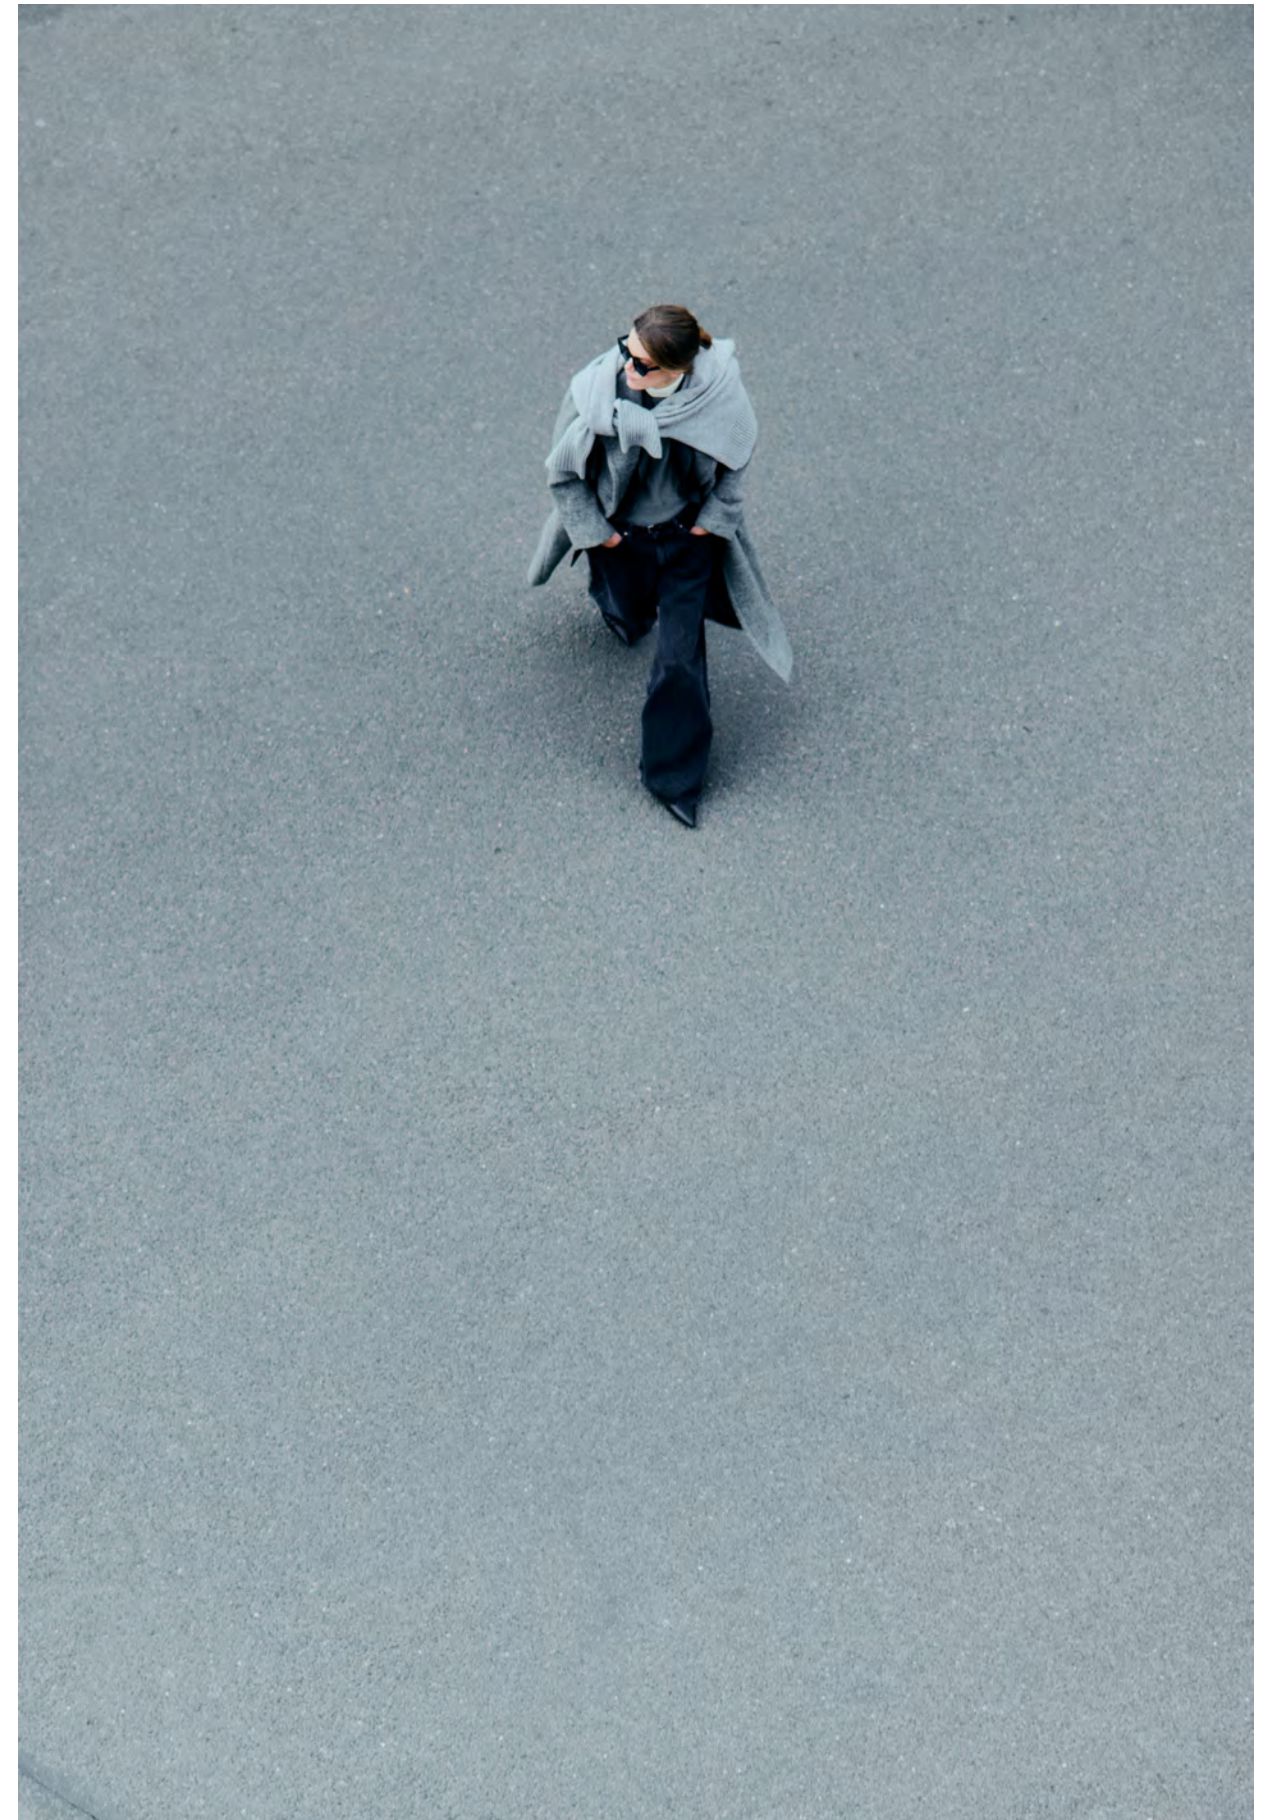

Colours that speak volumes. A palette of deep forest greens, rich grey mélanges, and opulent burgundy shades take center stage. Whether used as an accent or featured in a head-to-toe ensemble, burgundy elevates any outfit with its inherent elegance. These luxurious hues complement InWear's signature neutrals, offering a sophisticated fusion of minimalism and timeless style.

The collection juxtaposes menswear-inspired tailoring with feminine details. Boxy, heavyweight knits pair with sleek, elongated shapes, while pencil skirts and cinched-waist blazers strike a harmonious balance between casual and cultivated aesthetics.

Every piece reflects the brand's dedication to craftsmanship and its deep understanding of its customers. "The woman I design for exudes a beauty born from inner confidence," says Head of Design Jette Romvig, whose muse continues to inspire her. "She dresses for herself, embracing a personal and confident style." Explore the collection that defines modern minimalism, elevates everyday essentials, and embraces the diversity of city life. This is InWear Autumn 2025—timeless, functional, and undeniably you.
