SPRING/SUMMER 2024

OVERVIEW

MARCO TOZZI FASHION AND COLOUR THEMES

The MARCO TOZZI Spring/Summer 2024 collection is an ode to the summer season, bringing trends and freshness to the upcoming season. Our collection includes a range of materials, colours, decorations and constructions that reflect the influence of fashion and innovation.

SNEAKERS WITH A LOVE OF DETAIL

This season, white remains the clear basic colour, complemented by a wide, fresh colour spectrum such as pink, green, orange or even pastel shades. The heart as a key signature is clearly in the foreground and is accompanied by various new details such as embossing, prints or decoration. Exciting materials and soles also play a major role in both sporty and glamorous sneakers.

MARCO TOZZI FASHION AND COLOUR TRENDS

LOAFERS & BALLERINAS

Loafers continue to be a big fashion theme. Regardless of whether they are light, flat models or platform shoes, with original eye-catchers such as crystals, horsebits or chains, they are and will remain trendy. They are supported by the comeback of ballerinas, which come along with different materials and decorations in familiar but also in newly interpreted forms.

TREND COLOURS

This season is peppered with fresh, summery colourful combinations. Especially bright accent colours like pink, green or orange make us yearn for summer. Whether sporty or elegant, colours are a must. The colour blue has also gained momentum again.
