NOTEM

studio

Notem Studio is a Danish stationery brand founded in 2017 in Copenhagen. The Notem collection is a result of a comprehensive exploration of the intrinsic purpose of every single product.

We are inspired by human nature, by the way we keep track of things, by our sense of time and our memory. It is our mission to make paper add new value to your daily habits and to our everyday tasks.

ABOUT NOTEM STUDIO

Notem Studio wants to open our eyes for paper.

The collection consists of a series of notebooks, notepads, calendars and planners. Notem Studio designs products for everyday use, dreamed up for exactly those situations where you find yourself needing pen and paper.

The collection has everything from "to do" lists to pocket notebooks, notepads, project planners, weekly planners and notebooks that will help you keep track of your meetings, appointments and those things that you must remember to do.

Behind the delicate colours and the graphic rigour lies one central theme. Maybe we cannot really live without paper?

Notem Studio's founders are completely convinced that the days of paper are by no means numbered, even in our digital age. "We remember what we write. There is simply nothing that beats paper when it comes to gathering our thoughts and creating an overview. Having a notepad or a notebook nearby remains one of the most effective and soothing solutions — both for our busy daily-day and those quiet moments, where there is space for dreams" contends Notem's co-founder *Signe Birkving Bertelsen*.

BRINGING NEW VALUE TO THE MEANING OF WRITING

WE DISCOVER, WE CREATE
AND WE REMEMBER
