COMPAGNIE DE PROVENCE

The year was 1990. Two friends from Marseille, passionate about design, came up with a brilliant idea. Aware that the traditional Marseille soap cube held an important place in the cultural and industrial heritage of Provence, they decided to share this local treasure with people from all over the world. And that's how the story of Compagnie de Provence began...

The authentic Marseille cube soap needs no introduction. Made from nothing but vegetable oils, with no colorants or synthetic additives, this natural, multi-purpose product can be used every day on the hands and body, but also to wash delicate laundry and even clean floors!

Inspired by the countless benefits of this iconic soap, Compagnie de Provence has been selling products enriched with plant oils since its earliest days. Its formulas are simple, natural and effective, and provide solutions for all your everyday needs.

THE SOAPS ARE NATURAL AND
MADE WITH PURE VEGETABLE OIL.

Andrée Jardin®

A century ago, Andrée Jardin's future husband, Georges René Julio, started out as an apprentice brush maker in Nantes. In 1947, he opened his own factory and the adventure began. Jean-Baptiste and François-Marie, Andrée's and Georges René's grandchildren, created in 2012 the Andrée Jardin© brand (named after their grandmother) and have been producing beautifully crafted brushes ever since, working with designers to offer you natural, long-lasting household accessories. Most importantly, they want to work only with the finest French craftsmen. They are the true guardians of unique and outstanding traditions.

tadé
P A Y S D U L E V A N T

Tadé Pays du Levant was born of an encounter. The meeting between Thaddée de Slizewicz, a geographer with a passion for history, and the Mediterranean, the cradle of Humanity, the crossroads of legendary civilisations. On its fabled shores, he discovered an art of beauty and skincare with exceptional benefits, which draws its inspiration from the abundance of generous nature. Henceforth, our traveller had only one wish: perpetuating this precious knowhow, sharing this treasure and creating high-quality cosmetics for you.

He met craftsmen, swept them up in the adventure and created the Tadé brand in 1995 on his return to France. Twenty years later, true to this heritage, Tadé is exploring new territories to enrich its product offering: Hammam Essential, Mediterranean Fragrance and Dead Sea Essential, a Natural or Organically-certified collection. Enter a world of elegance and softness, forged by nature, time and the hand of man. Dare to explore the delights of the Mediterranean dream.
