TIK-TOQUE ROUND THE CLOCK.

THE TOQUE

Surely no other single word is used to describe so many different types of hat. In Canada, for example, a toque means a woolly hat. In equestrian sports, it is a helmet made of velvet worn by horse lovers. And among foodies, only true connoisseurs know that the Toque Blanche – only genuine if it has 100 pleats – should only warm the chef's head.

Be that as it may – the toque was extremely popular between the 13th and 16th century. In France, as the name suggests, but also in England.

The toque will probably forever be loved. Especially by women.

As wonderfully soft, stylish yet casual headwear.

Made of felt and boiled wool, like the wonderful winter design shown here.
