# CORMORANO

Cormorano is made from the finest quality calfskin. This product has seen a significant revival in recent years within bag collections from several of the major, international fashion houses.

The leather is sturdy and flexible with great durability. The characteristic surface is created by using a printing plate during the start of the tanning process followed by a coating, which adds extra protection against rain and dirt.

To maintain its characteristic and beautiful appearance, we recommend treating this product on a regular basis using Adax Protection Spray or Adax Balm.

# SALERNO

This Salerno collection is characterized by its simple design and delightful details. With the desire to create the ideal bag for the quality-conscious and modern woman, this collection originates in our deep affection for great materials and uncompromising design. The collection consists of bags and wallets made of the highest quality Salerno leather offering long durability with a characteristic surface, which only gets more beautiful with time!

We recommend treating the leather on a regular basis using either Adax Protection Spray or Adax Balm to maintain the characteristic and beautiful appearance of the leather.

## BACOLI

This collection is characterized by its simple design and delightful details. With the desire to create the ideal bag for the quality-conscious and modern woman, this collection originates in our deep affection for great materials and uncompromising design.

The collection consists of bags and wallets made of the highest quality Salerno leather offering long durability with a characteristic surface, which only gets more beautiful with time! the bags are braided by hand, creating strong references to Italian elegance and luxurious design.

We recommend treating the braided leather with Adax Protection Spray to protect and preserve the natural appearance of the leather.

## MOLISE

Molise is our top-quality line in an exciting and innovative design made in calfskin of the absolute best quality. It is also our very first step towards sustainable bag production.

The leather is tanned with products sourced from nature without the harmful use of chemicals helping us reduce our environmental footprint. With the conscious creation of this eco-friendly bag, we have maintained the same amazing quality and outstanding design.

Our design team has created a collection which differs in both quality and design from our customary bags. This renewal is founded in creating awareness as well as emphasis on Adax's dedication to a continuous and increasing need for sustainable production.

We recommend treating the leather with Adax Protection Spray to protect and preserve the natural appearance of the leather.

# VENEZIA

The Venezia collection is inspired by the 60's era with music festivals and youth rebellion. Today, we are seeing a similar tendency of revolting against the powerlessness and lack of freedom experienced by many of us during the corona pandemic.

The characteristic shadow effect of the leather has been created during the final stage of production, where each piece of leather is initially hand folded and then dried in the sun. The bags are handstitched in soft calf leather with its unique strength and durability. The casual design enhances the beautiful characteristics of the leather.

We recommend treating the leather on a regular basis using Adax Protection Spray to maintain the characteristic and beautiful appearance of the leather.

# SENNA

The Senna collection is designed for everyday use in our northern climate with the changing seasons and many days of rain. We have chosen a water repellent material for this collection, which both protects the items inside the bag as well as being able to withstand the changing weather conditions.

The collection is inspired by big city life with its simple design and focus on functionality.

Clean with a soft, damp cloth to remove any dirt. Never dry your bag next to a heating appliance such as a radiator or naked flame.

# TERAMO ECO

With our elegant and glowing Teramo Eco collection, we have created a sophisticated and extraordinary eye-catching look. The leather, made from exclusive, tanned calfskin and a gorgeous crocodile embossed structure, is made by applying high pressure and heat to a hand-engraved iron plate covering the hide.

We recommend using Adax Leather Balm to treat, protect and preserve the natural appearance of the leather. The eco-friendly leather is tanned with products sourced from nature without the harmful use of chemicals helping us reduce our environmental footprint. With the conscious creation of this eco-friendly bag, we have maintained the same amazing quality and outstanding design.

# SORANO

Sorano is made from calfskin with a focus on maintaining the natural look throughout the entire tanning and dyeing process. This is the kind of a quality where bags may be proudly passed down from one generation to the next only becoming more beautiful with time. The dye used is completely transparent showing the structure and unique characteristics of the leather. Only the very best, flawless hides are used for our Sorano products, making selection of leather a very time-consuming and demanding process. Only very few tanneries can produce the Sorano quality, which naturally limits the selection of this type of leather. The leather itself, is completely natural without any kind of surface coverage.

It is recommended that this leather is treated regularly using Adax Protection Spray to protect and maintain its natural appearance.

# RAVENNA

Ravenna leather is made from calf leather, inspired by casual fashion trends. In order to maintain the special, informal look of the leather, it is washed prior to the bags being sewn. The designs of the bags support the unique character of the leather with clear markings from its structure.

Ravenna bags are characterized by the great strength and durability of the leather.

It is recommended that this product is treated with Adax Protection Spray on a regular basis in order to maintain its characteristic and beautiful appearance.

# WOMEN'S GLOVES UNLIMIT GLOVES

For Adax gloves we insist on using the best Italian leather hand cut by our skilled craftsmen to fit the hands adjusting after use and keeping their shape year after year. We are devoted to details, the design and functionality when designing Adax gloves. Women's gloves size: S/M/L.

For our Unlimit gloves we insist on using vegan leather and nylon. It is important for us that everyone can feel warm and comfy without having to compromise on their ethical standpoint. This season, our vegan leather gloves come in light pastel colors with the addition of a bit of cotton fur giving the gloves a fresh and stylish look. We believe that a splash of color has a positive impact on dark and cold winter days! For the nylon gloves, we have designed classic quilted gloves in darker autumn colors. The Unlimit design team is devoted to stylish details, great design and keeping you warm this winter.

## PARMA WALLETS

Parma wallets are made from eco-friendly leather tanned with products sourced from nature without the harmful use of chemicals helping us reduce our environmental footprint. The wallets are designed and sewn in accordance with Adax' traditional craftsmanship and more than 35 years of experience.

We recommend treating the leather with Adax Protection Spray to protect and preserve the natural appearance of the leather.

Torsten - Parma 471311

Bastian - Parma 439111

Alex - Parma 457311

Frederik - Parma 471111

Preben - Parma 471211

Bertil - Teramo 405196

## TERAMO WALLETS

The Teramo wallets are eye-catching and characterized by their spaciousness and exclusive design. The leather, made from exclusive, tanned calfskin and a gorgeous crocodile embossed structure, is made by applying high pressure and heat to a hand-engraved iron plate covering the hide.

We recommend treating the leather with Adax Protection Spray to protect and preserve the natural appearance of the leather.

Carl - Teramo 405496

Viggo - Teramo 456996

John - Teramo 405896

Jeppe - Teramo 434696

Alex - Teramo 457396
