# FUTURE FRIENDLY

## TIMELESS AND SUSTAINABLE

Our collections are crafted with the greatest care, using a thoughtful selection of natural materials such as bamboo, viscose, cotton, linen, and blends of these materials. We prioritize the use of organic cotton and EcoVero viscose as standard in our collections.

Beside the use of future-friendly materials, we also make sure our production process aligns with our eco-conscious values. We exclusively partner with factories that share our commitment to the environment. They use environmentally friendly pigments and avoid aggressive dyeing techniques. Plus, we prioritize the well-being of factory employees and only collaborate with manufacturers who follow International Labor Standards.

This season, we invite you to embrace fashion that not only showcases timeless style but also supports a brighter future.

# BAMBOO BASICS

Colourful basics that feel like a second skin.

Experience the comfort of our silky soft bamboo knits, now available in a collection of bright colours and timeless stripes. Crafted from the rapidly growing bamboo plant, this remarkable fabric holds a secret. By regenerating from its own root, bamboo eliminates the need for replanting while minimizing the use of pesticides, water, and labor in its production process.

Bamboo possesses natural qualities that make it perfect for your wardrobe. Its hypoallergenic and antibacterial properties ensure a gentle touch against your skin, while the breathable fabric keeps you feeling fresh and comfortable all year round. Cozy warmth during winter months and a refreshing coolness in the summer heat.

Take your pick from our wide selection of striped items, whether you prefer a classic basic or a vibrant pop of colour.
