THE SWEDISH
LEATHER BRAND

Passion for leather

DESIGN BY SADDLER

We've developed and designed fashion accessories since 1986 and are still as much in love with our work as when we first started.

As one of Scandinavia's leading accessory companies, integrating sustainability into everything we do comes naturally. Regardless of whether it's about the environment, fair working conditions, or artisan quality.

Success requires devotion – in terms of our ability to embrace the latest fashion trends as well as contribute to global leather industry development.

Our close and long term relationships with our suppliers makes it possible for us to steer every aspect from what chemicals that are being used for tanning to fair wage for the craftsmen.

We are proud of our products and are happy to tell how they have been produced. Transparency is a natural driving force to become even better. As with our products, should every aspect of our work withstand any kind of intense scrutiny.

You can rely on the sustainability of every Saddler accessory, just as you can rely on the supreme quality of the leather it's made from. This is our promise to you.
