

SCANDINAVIA FORM

DISCOVER SCANDINAVIAN DESIGN THROUGH NATURE

SCANDINAVIA FORM is a design experiencing company with an aim to push the boundaries of Scandinavian style in search of something new. A community of collaborations with artists and designers, both local and them around the world. We explore "back to the origin" with nature as the source of inspiration, creativity, structure, experiences and well-being.

Nature's Raw Form and Shape create a genuine feeling of authenticity. Nature's built-in balance and harmony guide us to be as close to true nature as possible. "Form" is the way in which an object exists or appears – and to us, it is an everchanging playground, with endless possibilities of shapes, sizes, colours and uses.

We began with a curious ambition to experiment with Scandinavian design in an alternative context to explore nature's biodiversity to create something new. Inspired by the pure, untouched shapes found in plants, we created Consilium and Glasilium to showcase nature's raw form.
