

SHOCK ABSORBER

SPRING / SUMMER 2021

SHOCK ABSORBER IS THE UK'S LEADING SPORTS BRA BRAND AND HAS BEEN THE INDUSTRY EXPERT SINCE 1995

All our bras have been specifically designed to offer superior bounce control, incredible comfort and cutting edge features providing protection against key pressure points and hotspots on the body identified during sport. We know the importance of breast support during exercise.

Since our launch, the design and development of our sports bras have been underpinned by science. We continue to commission research from the University of Portsmouth, the world leaders in breast health, to test the performance of our products.

PERFORMANCE FABRICS

QUICK DRY

Eliminates rubbing in key hotspot areas and improves body temperature regulation.

DURABLE

Hard-wearing, abrasion-resistant fabrics that minimise pilling and keep Shock Absorber bras looking better for longer.

MOISTURE-WICKING

Draws sweat away from the body, ensuring skin keeps dry.

BREATHABLE

Allows air to circulate to the skin, essential to keeping cool when exercising.

WHY WEAR A SPORTS BRA ?

44% *

OF WOMEN

who exercise regularly do not wear sports bras

Your breast can bounce up to

14cm **

when unsupported during exercise

Wearing a Shock Absorber sport bra is proven to reduce breast movement by up to

78% ***
