PHOTOGRAPHY ART

Grace your walls  
with soul

## Soul Image – Photography art with a soulful message

Soul Image creates photo art – art posters. Each photo collection from Soul Image comes with a story and each image comes with its own soulful message.

There is a story behind every collection and each print comes with a beautiful written soulmessage.

A stylist and a photographer is the duo behind Soul Image. Which turns out to be at a great and powerful combination when these two creative professions meet. Their desire is to make the walls around us more peaceful, thoughtful and soulful!

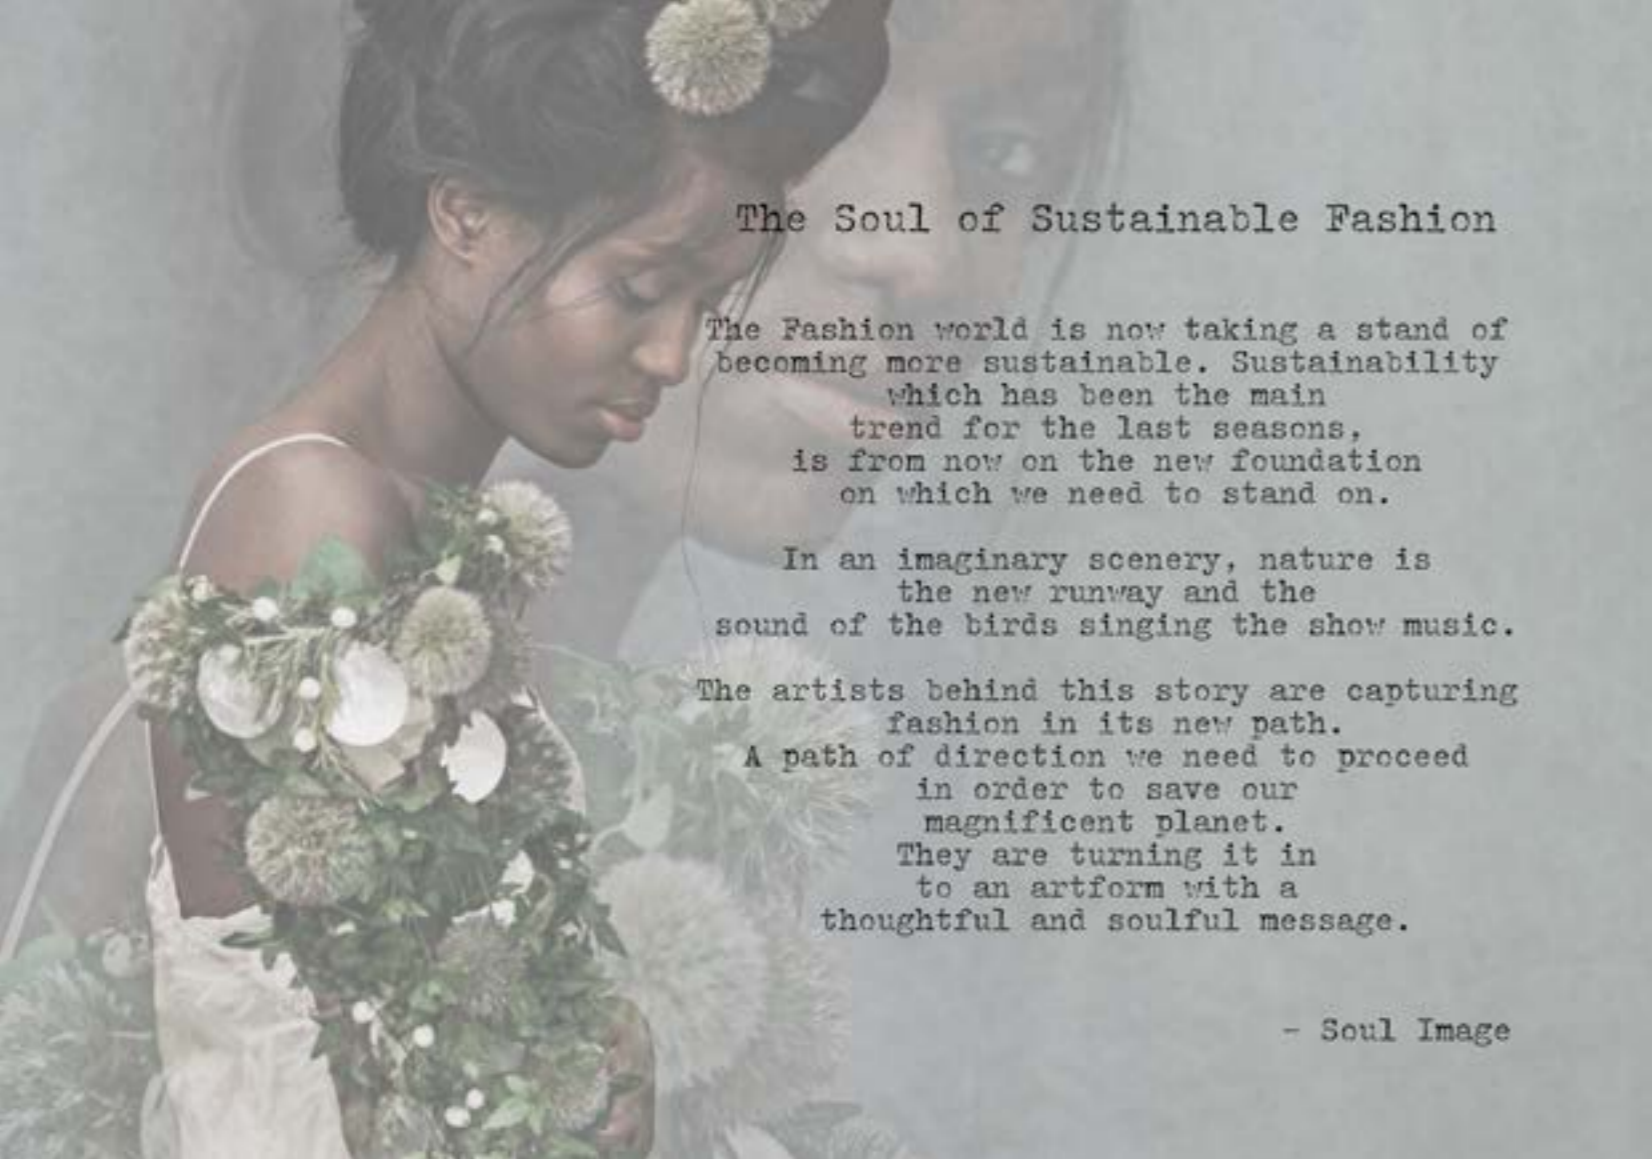

The company is based in Stockholm, Sweden and all Soul Images photo art are printed in Sweden on a climate friendly Swedish premium design paper. The paper comes from a prestigious Swedish paper mill with a great history of making paper dating back nearly 300 years.

Soul Image is offering three collections at the moment; The Soul of Sustainable Fashion, The Power of a Flower and A Soul of a Ballerina. New photo collections with thoughtful and soulful messages will continuously be released.

All the prints are signed by hand with the hand embossed Soul Image seal, to guarantee authenticity and making each print unique.

## The Soul of Sustainable Fashion

The Fashion world is now taking a stand of becoming more sustainable. Sustainability which has been the main trend for the last seasons, is from now on the new foundation on which we need to stand on.

In an imaginary scenery, nature is the new runway and the sound of the birds singing the show music.

The artists behind this story are capturing fashion in its new path. A path of direction we need to proceed in order to save our magnificent planet. They are turning it in to an artform with a thoughtful and soulful message.

# Soul of a Nomad

A new era is dawning. An era where mother earth matters deeply.  
Deep down from her powerful roots to all her magical greens, the plants, the flowers, the oceans and all the incredible wildlife she so gracefully provides for us, for her, for all.  
We are all connected in a beautiful weave.

A new beginning of seeing life as our ancestors the indigenous and native people's view of life. The awe and respect for the magnificent pureness and power of planet earth - and the whole magical universe.

If we listen we can hear her whisper to us.  
We can hear them who have been here before us, the ones who are coming, the ones who are guiding us.

If we listen we can feel who we are deep down in our divine souls.
