STOCKHOLM

LOOK BOOK 2023

A wooden easel stands in a studio, holding a large white canvas. A piece of white fabric is draped over the canvas, showing its texture. The studio has a white wall and a concrete floor. There are some papers and a dark blue board leaning against the wall to the right.

Our commitment to women of the world influences all we do. Femininity in all shapes and forms is celebrated and explored without limitations. A place with unquestionable equality, where real confidence blooms without reservations.

SUSTAINABLE

Our flexible production on demand makes sure we can deliver single pieces or small batches fast, without overproducing. All fabrics are natural. Moreover some of the fabric used in this collection are left-over fabrics. These limited editions fabrics are better choice for nature, because no new resources are used.

PERSONAL

Garments can be personalized for a perfect match to body and soul. Most garments are designed with flexible fitting elements to make sure they are flattering for all women.
