## Basic boards

Our collection of BASIC BOARDS is a range of classic serving boards in great design and quality, at competitive and commercial prices.

The products are manufactured from Acacia wood, which is untreated, or in Sheesham wood (also called Indian Rosewood), which have received an oil treatment to bring out the beautiful colours and structure of the wood.

All our BASIC BOARDS have a thickness of 1,5 cm, with slightly rounded edges, and all are mounted with a simple and nice leather strap.

In the collection there is a variety of different sizes and shapes, suited for any serving purpose, if it is tapas, pizza, cheese or similar - we have the board you need.

Our BASIC collection also consists of a wide range of serving trays in many variations, from small trays for serving small snacks to large trays, perfect for serving tapas, bread, meat, cheese - you name it..

We have created the BASIC BOARDS with focus on simple and elegant design, and with large focus on competitive prices, with no compromise on quality and design.

We recommend that our boards are treated with natural food oil after wash and use.

All products are exclusively designed by Stuff Design.

## Plank boards

PLANK BOARDS is our collection of super cool cutting and serving boards where quality and design are in top.

Most of our plank boards are mounted with a wide leather strap, hammered with brass nails, to give these boards a unique and masculine look.

The thicknes of most of our planks is 2,50 cm, and they are all available in both Aca-cia and Sheesham wood.

In this collection we also have our unique RAW planks, which are kept with sides just as nature created them - to make each plank one of a kind...

PLANK BOARDS are unique because of the thicknes of the boards and also the simple and rough look, is what make these boards very special.

We recommend that our boards are treated with natural food oil after wash and use.

All products are exclusively designed by Stuff Design.
