

Lifestyle collection.

AUTUMN / WINTER 2026.

Tenson[®]
EST. 1951

An introduction to the AW26 lifestyle collection.

The Tenson Lifestyle collection for Autumn/Winter 2026 embraces minimalism through function and quality, letting fabrics and performance take center stage. Clean silhouettes and a scaled-back design language highlight the essentials, creating garments that feel effortless yet considered.

The palette is both classic and playful, balancing autumnal warmth with refined contrasts. Bordeaux, deep red and olive meet soft rose tones and dark chocolate brown, while the men's line introduces a more traditional base of black, navy and earthy brown.

Rooted in contemporary urban outdoor aesthetics, this collection is made for everyday movement – pieces that carry you seamlessly from the city streets to moments of calm outdoors. Simple. Functional. Built to last.

ESSENTIAL PIECES FOR LIFE IN MOTION.

COLOUR STORY - MEN

COLOUR STORY - WOMEN

Colours of the Season.

For Autumn Winter 2026 the Tenson Lifestyle collection embraces a minimal design language where fabrics and performance take the lead. Clean silhouettes and a scaled-back aesthetic highlight the essentials, creating garments that feel effortless yet refined. Rooted in contemporary urban outdoor style, the collection is made for everyday movement – from the rhythm of the city to moments of calm outdoors.

The palette is both classic and playful, combining bordeaux, deep red and olive with soft rose tones and dark chocolate brown. For men, a more traditional base of black, navy and earthy shades adds timeless balance. Together these colours create an autumnal harmony that feels modern yet enduring.

Powered by Tenson's extended MPC Technology scale featuring the top level MPC Extreme X™, the collection delivers versatile essentials that unite style, comfort and functionality – pieces built to last and designed to move with you through everyday life.

Tenson Design Team.

The background of the advertisement is a dark, moody photograph of a modern architectural structure. It features a series of large, circular, overlapping concrete or stone elements that create a sense of depth and geometric pattern. The lighting is dramatic, with strong highlights and deep shadows. On the right side, a portion of a light-colored, possibly white or light grey, jacket is visible, showing a small, dark rectangular patch with a logo.

Trench Nouveau Men

ART.NO. 465017831

ABC

SEK	4000
EUR	380
DKK	2800

This is Tenson's contemporary take on the classic timeless trench coat – the Trench Nouveau, which embodies a simplistic functionality as well as elegance and versatility. Made in 100% recycled polyester powered with Tenson's proprietary MPC Extreme technology, taped seams and water-repellent zippers - making it wind and waterproof with a PFC-free water-repellent surface. The Trench Nouveau is a stylish outdoor apparel piece for all weather conditions.

Trivia: Did you know that the khaki-colored trench coat was originally developed for the British Army officers before the First World War, becoming popular while used in the trenches. It was originally made from gabardine made waterproof by using lanolin before weaving. Today it is powered with Tenson's waterproof proprietary MPC technology keeping you dry and comfortable all year around no matter the weather.

DKK	3500

A Tenson icon and heritage performance down jacket that has made it to the top of Mt Everest. The robust lightweight Naomi Expedition down jacket with a fixed hood is designed and developed for arctic expeditions, your everyday winter adventures or in the slopes. It features a water-repellent durable ripstop fabric and is filled with RDS certified down (700 fill power) with a fluffy 90/10 down-to-feather ratio.

On windy days, you can easily pull up the plush collar or use the robust, adjustable warm and cozy hood. Comes with smart details like, adjustable sleeves, two-way fleece-lined pockets, an inner pocket with secure zip and audio cord outlet. Should you get too warm, you can easily carry the jacket with you thanks to the removable suspenders attached on the inside.

Trench Nouveau Women

ART.NO. 465017830

ABC

SEK	4000
EUR	380
DKK	2800

This is Tenson's contemporary take on the classic timeless trench coat – the Trench Nouveau, which embodies a simplistic functionality as well as elegance and versatility. Made in 100% recycled polyester powered with Tenson's proprietary MPC Extreme technology, taped seams and water-repellent zippers - making it wind and waterproof with a PFC-free water-repellent surface. The Trench Nouveau is a stylish outdoor apparel piece for all weather conditions.

Trivia: Did you know that the khaki-colored trench coat was originally developed for the British Army officers before the First World War, becoming popular while used in the trenches. It was originally made from gabardine made waterproof by using lanolin before weaving. Today it is powered with Tenson's waterproof proprietary MPC technology keeping you dry and comfortable all year around no matter the weather.

Miyabi Hood Down Jacket Women

ART.NO. 465018466

ABC

SEK	2400
EUR	230
DKK	1700

The Miyabi Hood Down Jacket Women is built for outdoor adventures where warmth, light weight and mobility are essential. Insulated with RDS-certified 90/10 duck down with a Fill Power of 650, it offers reliable warmth in cold conditions without unnecessary bulk. The lightweight ripstop shell with glued channels enhances durability while keeping the design streamlined. A regular fit with articulated sleeves ensures natural movement, while the fixed hood, folded chinguard and elastic cuffs keep out wind and cold. The adjustable hem allows a customised fit, and practical zippered pockets provide secure storage for small essentials. Versatile and packable, the Miyabi Hood Down Jacket is your dependable companion – whether hiking in the mountains, exploring the outdoors or facing chilly everyday conditions.

A man and a woman are walking away from the camera on a rocky, uneven ridge. The man, on the left, is wearing a light-colored jacket and dark shorts. The woman, on the right, is wearing a light-colored trench coat and dark pants, with a black bag slung over her shoulder. They are walking towards a horizon under a bright blue sky with scattered white clouds. The foreground is filled with out-of-focus, dark, rocky terrain.

Tenson
AirPush™
Insulate

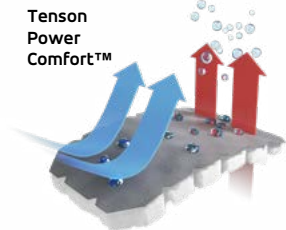

Tenson's AirPush™ Insulate offers lightweight, voluminous insulation for cold-weather conditions. The featherless padding is designed to provide excellent breathability, moisture transport and movement making it ideal for the super-active outdoor adventure traveler.

Tenson
AirPush™

Tenson AirPush™ is a lightweight microfibre technology focused on improving breathability, suitable for strenuous activities which require maximum comfort and breathability along with wind and water resistance. Made possible by the high density of the fabric (+30% higher than conventional fabrics).

Tenson
Power
Comfort™

Tenson's Power Comfort™ Insulate offers lightweight, voluminous insulation for cold-weather conditions. The featherless padding is designed to provide excellent breathability, moisture transport and movement.

TENSON TECHNOLOGIES.

Waterproof. Windproof. Breathable. = MPC™.

We've got your back in terms of function and laminate! We've been on a quest to withstand wind and water since the early 1980s when we at Tenson launched our self-developed MPC (Moisture Permeability Coating) laminate that keeps you dry and comfortable.

Tenson's MPC technology: developed to withstand wind and water since the early 1980's keeping you dry and comfortable no matter what weather mother nature might throw at you.

The MPC laminate causes the rainwater to drain off the garment. At the same time, the condensation / moisture that comes from the body is transported into and through the garment. In other words, MPC allows the garment to "breathe" so it feels comfortable to wear even during demanding activity. Our MPC garments also are taped at seams to add additional wind- and waterproof protection.

Tenson MPC features three performance grades - MPC Extreme™, MPC Plus and MPC:
