With an extensive range of licensed products, the Tamaris brand is presented holistically and offers women the right toe-to-head look for every moment in life. On its way to becoming a lifestyle brand, the white world of Tamaris meets the colourful lifestyles of women. With shoes that carry them through special moments in life or bags in which they hide their little secrets. With jewellery that holds memories or the perfect outfit – whether for a first date or an important job interview. Our products give us access to the personal moments in women's lives, creating experiences that give the brand identity – a license to love.

Since its foundation in 1890, medico sports fashion GmbH has been regarded as a traditional company and the inventor of the ski polo. It combines quality, innovation, sales and production expertise under one roof. As a licensee for the apparel sector, the Medico Group takes the Tamaris fashion collection to a new level.
