

**UNIVERSAL**

# ABOUT UIS

## **COMMON POINT OF FASHION AND QUALITY SINCE 1998**

We have been manufacturing underwear and outerwear and home textiles fabrics since 1998. Named by Time magazine as one of the most important inventions of the 20th century, the "anti-pilling polar fleece" comprises the most of our production and we are among Turkey's leading companies in manufacturing "polyester knitted fabrics" with our qualified workforce and the cutting-edge technology we use during production. In addition, we, as Universal Tekstil, are proud for being the first company to introduce polar fleece in Turkey.

We shape the sector with our registered antibacterial, non-perspiring, non-flammable and anti-pilling polyester fabric range that we produce in our knitting, dyeing, printing and chemical finishing facilities. Moreover, we play a major role in the development of fabric production capacity in our country.

We are producing in high capacity at our 67,720m<sup>2</sup> outdoor and 50.000m<sup>2</sup> indoor production facilities. With our fabric production capacity up to 60 tons per day, we offer outstanding services to brands from all over the world. We produce our fabrics in our own facilities in accordance with internationally recognized quality standards. We add new values to Europe and Middle East markets with our advanced technology, service quality and high production capacity.

**WE TOUCH YOUR LIVES**

# OUR VISION

To be the premier choice of the brands that shape the world fashion with our quality products and special design patterns that we add our innovative point of view.

# OUR MISSION

While producing high quality fabrics, also being sensitive to human health and environment and being a reliable, customer-oriented brand.

# OUR QUALITY POLICY

## **CUTTING-EDGE TECHNOLOGY, A GOOD TEAM AND TEAM SPIRIT**

FOR THE BETTER, FOR THE BETTER QUALITY

As Universal Tekstil, we produce products that meet the needs and expectations of our customers by using cutting-edge technology, by fulfilling our legal responsibilities and by respecting the environment.

We keep our quality management system in line with OEKO-TEX 100, Global Recycling (GRS), ISO 27001, ISO 9001: 2008, ISO 50000: 2011 standards, and continuously develop our system. In addition to the standards, we develop strategies to bring the efficiency of our teams and departments to international levels. In line with these strategies, we aim to achieve our goals by completing every task with team spirit. We support the development of our employees through trainings, and encourage them to be innovative and creative. In addition, we place importance on the safety of our employees and the protection of the environment.

With all these quality policies, we are working hard to become an exemplary organization in the textile industry.

# OUR CERTIFICATES

## RESPECTING THE ENVIRONMENT, VALUING PEOPLE

As Universal Tekstil, we value people and respect the environment. The biggest proof of this is the certificates we own.

# FOR A SUSTAINABLE WORLD

As Universal we intend to protect the environment while we continue our production; besides spreading this consciousness to the whole industry and the world is among our main aims. We want to keep nature pure like we first found it. That is why we produce environmental-friendly products. We take actions to increase the environmental awareness of all our employees. We try to prevent unnecessary waste generation by using materials in the most efficient way. We recycle the wastes and make them reusable with a recycling project. By minimizing our energy consumption we aim to reduce carbon emissions every year. We take precautions to avoid noise pollution. We see Environment, Quality, Occupational Health and Safety Policies as a whole and work hard to improve these interconnecting policies.

A scenic autumn landscape featuring a calm lake in the foreground, a waterfall cascading into it, and majestic mountains in the background. The trees are in various stages of autumn, with some showing vibrant orange and yellow foliage. A wooden walkway with a railing is visible on the left side of the image. The sky is a clear, pale blue.
