90 Years
ANNIVERSARY
CELEBRATION

HAPPY BIRTHDAY, DARLING!

This year marks the grand celebration of our 90th birthday – and we are more fabulous than ever! Join us in festivities and let's infuse every moment with a touch of sparkle. Let's make this anniversary a shimmering chapter in our incredible story. Cheers to the past, present, and the wonderful moments yet to come!

On October 6, 1934, Vogue socks were simultaneously launched in almost thirty department stores and specialty stores in Stockholm, Gothenburg, and Malmö.

Dream Sock, black

In 1939, a revolutionary textile fiber, nylon, was introduced at the New York World's Fair, spreading worldwide in the following decade.

The Story

The story of Vogue began in Sweden when a prominent sock producer, Aktiebolaget Malmö Strumpfabrik, registered the Vogue brand in 1934. From the very beginning, the vision was to craft a premium brand, one that provides pieces of everyday luxury for contemporary women.

Right from the very first collection, Vogue products centered around exquisite materials. No expense was spared in using fine silk and wool, propelling the collection to instant success. The high-quality products swiftly gained popularity in Sweden, and within a few years, Vogue items found their way to other Nordic countries as well. In the late 1980s, the brand was acquired by a Finnish company, and in 2005, Vogue became part of Nanso Group: a Finnish house of brands. Since then, Vogue has continued its international expansion.

Throughout its history, Vogue has stayed true to its brand ethos. The constant seek for high-quality materials continues today, with a careful focus on sustainability, comfort and impeccable fit. Coupled with these attributes and the brand's longstanding tradition of craftsmanship, Vogue continues to infuse joy into the art of dressing, transforming pantyhose and socks into elegant, joyful details that provide the perfect finishing touch to any outfit.

FINEST COTTON

Vogue Finest Cotton socks are made of high quality long fiber yarns which give the products outstanding durability and comfort in use. The Finest Cotton socks have a soft and sleek surface and are durable without pilling.

CASHMERE

Cashmere is a soft wool fabric made from the hair of the Cashmere goat. Cashmere fibers are extremely soft and silky to the touch but strong and weigh practically nothing. Cashmere wool is three times more insulating than sheep wool.

MERINO WOOL

Vogue wool products are made of very fine and soft merino wool. Merino wool is a natural fiber grown by Merino sheep. It is thinner and softer than regular wool and also one of the most breathable fibres. Wool fibres can absorb large quantities of moisture vapour then move it away to evaporate into the air. Each fiber naturally helps regulate body temperature, so it helps you stay warm when the weather is cold, and cool when the weather is hot.
