Walls of Inspiration

Ideas of how to group selected prints

Walls of Inspiration

Established January 1998. We refresh, re-mix and curate vintage illustrations and print premium quality posters for contemporary walls. Made in Denmark. Sold Worldwide.

We are often asked which designs fit together. This is a question with many answers. Luckily the mood in our designs is the same, making it easy to combine birds, fish and botanicals.

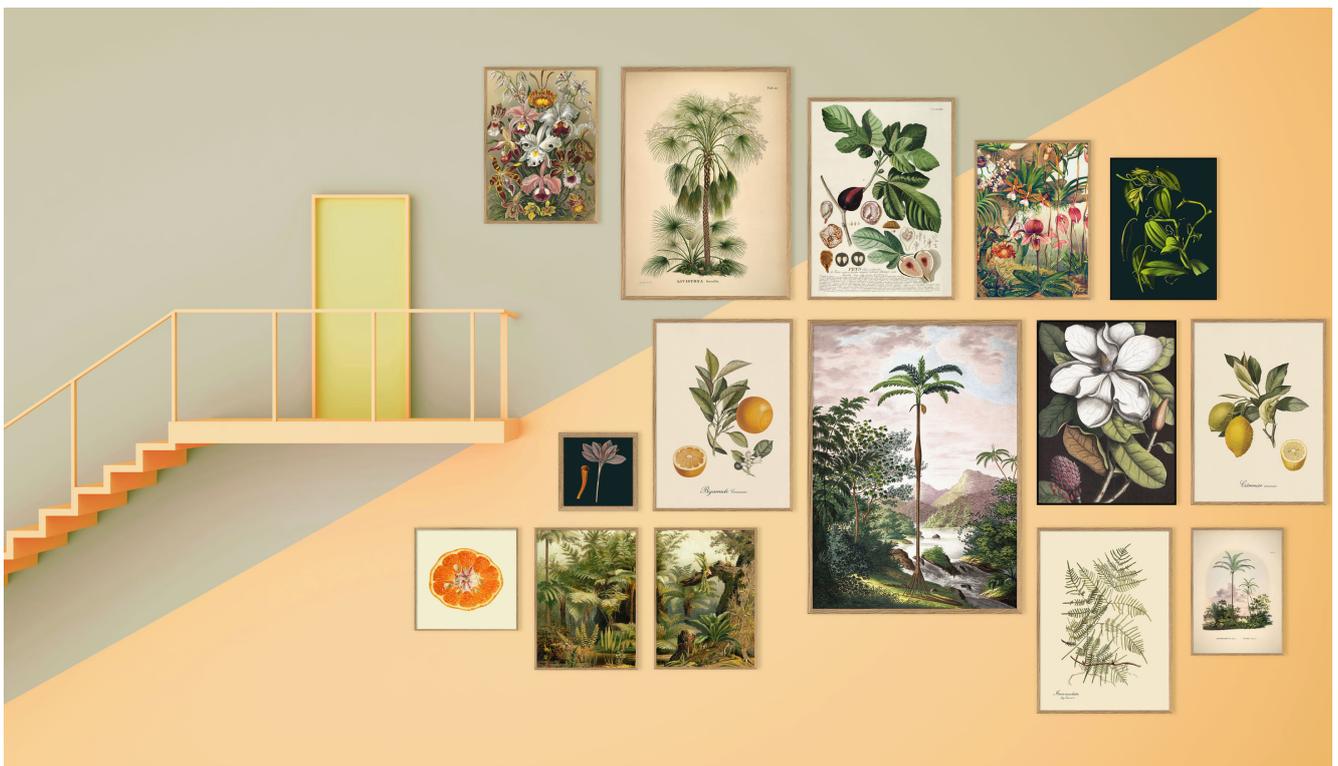

In this brochure we hope to inspire you to mix and match.
Feel free to add and change so it fits better with your own curated space.

Everything is online at www.thedybdahl.com
