Swedish design

A minimalist wardrobe with sustainable, timeless Scandinavian design. These are the cornerstones of our capsule collections, with long-lasting garments that can be worn regardless of season and easily combined for different looks.

Perfect fit

Our philosophy is to create a minimalist wardrobe with high-quality garments that can be worn all year round. "My starting point was to look at what I wanted to wear myself," says designer Kajsa Skoglund. "And what I wanted was environmentally friendly materials with natural comfort. Clothes I can feel comfortable in and therefore want to wear all the time."

Atelier Kajsa's collections are designed to meet the varied needs of our busy, modern lifestyles. They contain pieces which emphasise individual style, with a perfect fit, and cut with high-quality materials. "The clothes are classic and elegant, key items with a twist," says Kajsa Skoglund.

Svensk design

En minimalistisk garderob med hållbar, tidlös skandinavisk design. Detta är grundpelarna i våra kapselkollektioner, med plagg som håller länge och som kan bäras oavsett årstid och enkelt kombineras för olika stilar.

Perfekt passform

Vår filosofi är att skapa en minimalistisk garderob med plagg av hög kvalitet som kan bäras året runt. "Min utgångspunkt var att titta på vad jag själv ville ha på mig," säger designer Kajsa Skoglund. "Och det jag ville ha var miljövänliga material med naturlig komfort. Kläder jag kan känna mig bekväm i och vill bärta hela tiden."

Atelier Kajsas kollektioner är designade för att möta de varierade behoven i våra hektiska, moderna livsstilar. De innehåller plagg som betonar individuell stil, med en perfekt passform och skurna i material av hög kvalitet. "Kläderna är klassiska och eleganta, nyckelplagg med en twist," säger Kajsa Skoglund.

TENCEL™ & ATELIER KAJSA

TENCEL™ Lyocell are botanic-based fibers of natural origin. It's made from wood-pulp using wood from sustainably managed forests.

The “closed loop” approach used in production ensures that 99% of the chemicals and solvents used in the process are recovered and recycled. TENCEL™ fibers are designed to last, but should they be disposed of, they are fully compostable and biodegradable.

Benefits of Tencel:

- Sustainable
- Biodegradable
- Breathable
- Absorbent
- Hypoallergenic
- Gentle on skin
- Renewable resource
- Reduced chemical use

Our TENCEL™ Lyocell Produced in Europe:

The Lyocell we are using is produced by Joaps in Portugal with the Lyocell fiber from Lenzing AG. We searched extensively to find a more sustainable, biodegradable fabric that also meets our high standards when it comes to quality and comfort.

TENCEL™ Lyocell är botaniskt baserade fibrer av naturligt ursprung. Det är tillverkat av trämassa som kommer från hållbart skogsbruk.

Det kemiskt slutna systemet som används i produktionen säkerställer att 99% av de kemikalier och lösningsmedel som används i processen återvinns och återanvänds. TENCEL™ fibrer är designade för att hålla länge, men om de skulle kastas så är de helt komposterbara och biologiskt nedbrytbara.

Fördelar med Tencel:

- Hållbart
- Biologiskt nedbrytbart
- Andningsbart
- Absorberande
- Hypoallergent
- Skonsamt mot huden
- Förnybar resurs
- Minskad kemikalieanvändning

Vår TENCEL™ Lyocell produceras i Europa:

Den Lyocell vi använder produceras av Joaps i Portugal utav lyocellfibrer från Lenzing AG. Vi letade länge för att hitta ett mer hållbart, biologiskt nedbrytbart material som även uppfyller våra höga krav när det gäller kvalitet och komfort.

ORGANIC COTTON & ATELIER KAJSA

Organic cotton is a sustainable and environmentally friendly alternative to conventional cotton. It is grown using natural farming methods that prioritize the health of the environment, farmers, and consumers.

By choosing Organic cotton, individuals can support a more sustainable and ethical fashion industry, as it promotes soil fertility, biodiversity, and water conservation. Organic cotton is free from chemical residues, hypoallergenic and gentle on the skin.

Benefits of Organic cotton:

- Eco-friendly
- Hypoallergenic
- Breathable
- Soft
- Biodegradable
- Soil conservation
- Water-efficient
- Chemical-free

Our Organic cotton Produced in Europe:

The Organic cotton we are using is produced by Joaps in Portugal. Joaps takes pride in producing Organic cotton in Europe, adhering to the highest standards of sustainability and quality.

Ekologisk bomull är ett hållbart och miljövänligt alternativ till konventionell bomull. Den odlas med hjälp av naturliga jordbruksmetoder som prioriterar miljöns, böndernas och konsumenternas hälsa.

Genom att välja Ekologisk bomull kan individer stödja en mer hållbar och etisk modeindustri, då det främjar markens fruktbarhet, biologisk mångfald och vattenkonservering. Ekologisk bomull är fri från kemiska rester, hypoallergener och är skonsam mot huden.

Fördelar med Ekologisk bomull:

- Miljövänligt
- Hypoallergent
- Andningsbart
- Mjukt
- Biologiskt nedbrytbart
- Främjar vår mark
- Kemikalfri

Vår Ekologiska bomull produceras i Europa:

Den Ekologiska bomull vi använder produceras av Joaps i Portugal. Joaps är stolta över att producera Ekologisk bomull i Europa och följer de högsta kraven för hållbarhet och kvalitet.

OUR COMMITMENT: RESPONSIBLE FASHION

Every item of clothing we make is produced according to our commitment to sustainable practices in the manufacture, delivery and lifecycle of our products.

- Atelier Kajsa clothing is made using responsibly sourced materials such as Organic cotton (GOTS), OEKO-TEX cotton, Viscose made from FSC Certified yarn or TENCEL™.
- Atelier Kajsa only works with European suppliers who share our commitment to responsible fashion. This means we can confidently trace the origins of the materials that we use, while the carbon footprint of our products is also reduced.
- Atelier Kajsa clothing is delivered in eco-friendly packaging which is made from 90% recycled materials and is fully recyclable after use.

Our Core Textile Suppliers:

JOAPS

Country: Portugal

Atelier Kajsa's choice for: TENCEL™ & Organic cotton (GOTS)

Based in the municipality of Vila Nova de Famalicão, a region in Northern Portugal with a strong textile tradition, Joaps uses the latest technology and staff training to create the highest quality materials. Joaps is also committed to protecting the environment by putting sustainable development at the heart of its business practices and manufacturing processes.

Varje plagg vi tillverkar produceras enligt våra krav på hållbara metoder i tillverkningen, leveransen och livscykeln för våra produkter.

- Atelier Kajsas kläder tillverkas med ansvarsfullt producerade material såsom Ekologisk bomull (GOTS), OEKO-TEX-bomull, Viskos tillverkad av FSC-certifierat garn eller TENCEL™.
- Atelier Kajsa samarbetar endast med europeiska leverantörer som delar våra riktlinjer för ansvarsfullt mode. Det innebär att vi kan följa materialets ursprung och minska koldioxidavtrycket från våra produkter.
- Atelier Kajsas kläder levereras i en miljövänlig förpackning som tillverkas av 90% återvunna material och är fullt återvinningsbar efter användning.

Våra huvudsakliga textilleverantörer:

JOAPS
